

Organization

See also the BW page on [GBU Master Data](#).

Data Object Definition

Organization data shows the allocation of sales to activity groups and GBUs, for purpose of analytics and reporting.

There 3 levels in the hierarchy: activities are grouped into a group of activity, which belongs to a GBU.

Deployment Status

AVAILABLE

This data is available in the Data Ocean as of Q2 2023.

Data Model

Organization data in the Data Lake is composed of 3 different table views:

1. [DIM_activity1](#)
2. [DIM_group_of_activity](#)
3. [DIM_gbu](#)

Project Space: prj-data-pricing-dev

See how this entity relates to the others in the [pricing data model here](#).

Additional Info & Comments

- The GBU table also contains historical GBUs which are no longer a part of Solvay, for example Vinyls.
