Rebates

Account Managers can enter a Rebate in the quote when the status is Draft. The Rebate section is just a text field where the user can enter all details related to the Rebate.

In addition the Account manager has field : Rebate URL, that can be used to store the link to the rebate file that need to be loaded in SAP.

If an AM enters a Rebate, the approver will see a banner on the top of the quote so that they review it before approving or rejecting the price.

FD - [CORE] 7.2 - CSR Tasks : Update Rebate

When the a quote containing a Rebate is moved to "SAP Upload Preparation" the system creates a task for the CSR that contains the Rebate Details.

- RT : “Upload Rebate”
- Dut date is set to + 7 business days
- Subject = “Upload Rebate on quote : 042130”
- Related to the quote
- Owner = “Rebate Upload Queue”

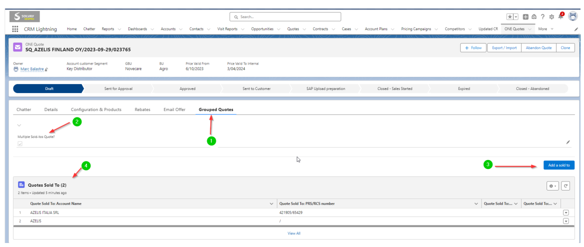
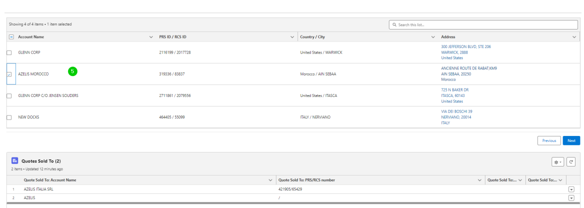
Multiple Sold To





⚠ Unable to locate Jira server for this macro. It may be due to Application Link configuration.

For Account Manager that manage same price for multiple Sold to they can manage it through the "Grouped Quote" tab (1) that is available at Draft Status.

The account manager can tick the box : "Multiple Sold-tos Quote?" (2).

Once it is checked the account manager :

- Can not anymore Mass Edit the quote
- Can not update OQLI Ship to
- Can not clone quote line
- Can link a new sold to (3) & (5) with the following criterions
  - all Account with the same “Quote. Account.Corporate group” + Partner type = “Ship To” or” Sold-to & Ship-to” + Do no show the Quote Account
  - and not already in the linked to the quote

- Account Sub partner type = “Sold to & Ship to”

The list of quote sold to is display at the bottom of the page. (4)

Once que quote is not at DRAFT Status, the Account Manager can not EDIT / DELETE Quote Sold to list. The "Add a sold to" button is hidden

When the user access the Configuration & Product an additinal note identify that it is a grouped quote (1)
