

How to create a service one ticket for ONELIMS ?

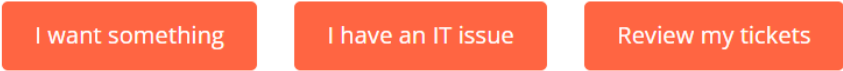

Useful Link

★ [Service one](#)

Who :

- the champion creates the request for the end-user (preferred option)
- the end-user creates the request and add their champion as a collaborator

How :

STEP 1 >	Connect to the home page Syensqo and click on "Syra"	
STEP 2 >	Select "I have an IT Issue" on Syra	

STEP 3 >

Fill in the form to submit an incident

1- Select the type "An Application or software program used in your daily work (e.g. Gmail, SAP, Gensuite)"

2- Once you choose the type of the issue, you will be able to select the affected application "ONE LIMS (Agilab)"

3 - Fill in the other mandatory fields (Subject, My issue is, Impact, the urgency..). Then, you submit the request

Request for  Edit

Maximum file size: 5.00 MB

Maximum file count: 3

STEP 4 >

Add the Agilab expert (Marianne Labet) as collaborator

The screenshot shows a mobile application interface for reporting an IT issue. The form is titled "Report an IT Issue" and is currently in a "Checkout" state. The user is identified as "Fanny Beusnard" and the quantity is set to "1". The form includes several required fields: "Affected Application" (with a dropdown menu showing "ONE LIMS (Agilab)"), "Subject", "My issue is", "Impact", and "Urgency". There is also an "Attachments" section with a file upload button. A modal window titled "Collaborators" is open, showing a search bar with the text "labet" and a list of results. The results include "Marianne Labet" with a green checkmark, indicating she has been selected as a collaborator. The modal also shows "Selected (1/20)" and "Results" with the name and email address of the selected collaborator.

- Once the Request is submitted, the team receive a notification to solve the problem.
- The ticket creator is notified when the problem is solved or if we need more information.
