

SRM7 - Impact of the project PO2

SRM7 - Impact of the project PO2

>> Back to [Data & Reporting](#) home page

In the frame of Po2, the financial matrix was duplicated

There is one financial matrix for Syensqo and one for Solvay

=> All cost objects in a company Syensqo should have a responsible Syensqo and vice et versa.

In the frame of the project and the introduction of the new matrices, there may be problems with authorisations for access to SRM7.

It is therefore recommended that you use the tables below, which are regularly updated, to easily find users by scope.

- [PO2 - financial matrix Syensqo](#)

You can filter by GBU, user name or position to find the corresponding code in each of the Solvay and Syensqo scopes.

PO2 - financial matrix Syensqo
