INTRODUCTION

Group, we want to attract, source, select and onboard high quality and diverse talent for today and tomorrow. In line with the People Engagement Strategy, managers take the lead in the recruitment of a new member in their team: from the identification of the hiring need, throughout the decision on the hiring and the onboarding of a new team member. This leader's led approach is supported by My HR Services as the digital platform to enable the simplification and optimization of the process.

HR teams do continue to play a crucial role in supporting managers in these processes. Find out more details on the different recruitment related processes and your HR role below.

Pay Transparency Directive and the Gender Equality Strategy

In line with the [EU Pay Transparency Directive and the Gender Equality Strategy 2020–2025](#), as of **March 2026**, all job postings across **EMEA** will be required to clearly communicate salary ranges. This change is a key step in supporting fairness, equity and trust throughout our recruitment processes.

Requirements of the EU Pay Transparency Directive

- Job postings must include salary ranges
- Employers must not ask candidates about their salary history
- Salary information must be provided before the first interview (legal requirement)

Internal roles

- Salary ranges will be communicated using 80–100% of the salary range for the job grade.
- For multi-country postings salary information will be provided for the primary country with a note indicating that local conditions apply in line with local legislation.

External roles

- Where a salary range has not yet been established for a role or site, the Hiring Manager and Site HR will define an appropriate range based on market data or comparable positions.
- The Hiring Manager will communicate the agreed range to the TA Partner, who will ensure it is included in the job posting.
- Sites with Collective Agreements:
 - The Hiring Manager and Site HR are responsible for reviewing the applicable collective agreement to confirm the correct wage rate or range to be included in the job posting.

Additional notes

- No specific reference to S-grade will be included in job postings.
- This approach applies to both internal and external postings.
- TA Team will deploy this information to the Country HR teams during February month.

Goal is to ensure consistency, transparency and full compliance with applicable pay transparency legislation while reinforcing our commitment to diverse hiring practices. For further guidance please check out the [supporting materials](#) developed for the TA team.
