

2019-09 - Remember Yordan Nikolav

Hello Everyone,

It was two years ago, today, that Yordan Nikolav lost his life. Since this tragic incident, we have embarked on a journey to Create Safety in Solvay, to ensure we never have another fatality and never have to reach out to a person's family and let them know their partner, their son, their daughter, their father, their mother won't be coming home again. This is why we do what we do and why it is so important to create the right environment where safety is just how we do things in Solvay. Together, we will make sure everyone makes it home safe at the end of the day.

Be Safe,

James
