

Product Stewardship - Raw Mat Documents - (to be updated)

All supplier documents are stored on supplier specific record REAL_SUB_E

Documents are subdivided into 2 main groups:

- (e)SDS - (extended) Safety Data Sheets
- related documents (Certificates of Analysis, supplier regulatory statements etc.)

(e)SDS

Depending on plant location corresponding SAP EHS (e)SDS variant is used for the upload of (e)SDS. This allows to filter SDSs in Raw Material Sinequa on a right side panel by Document type - SAFETY DATA SHEET and by Language.

Additionally, BW report is available by inquiry if list of all available SDSs with their revision dates are needed for the site.

Only released versions of supplier SDSs are available in Raw Material Sinequa while Historical SDSs are stored within SAP EHS REAL_SUB_E record for reference.

Related Documents

If additional information is provided by the supplier then it is stored in SAP EHS on REAL_SUB_E object as related document using one of the Variants available for Related Documents.

(e)SDS variants:

Variant	Description
IBD_AP	Generic SDS for Asia & Pacific countries
IBD_AT	SDS for Austria
IBD_AT_EX	Extended SDS for Austria
IBD_AU	SDS for Australia
IBD_BE	SDS for Belgium
IBD_BE_EX	Extended SDS for Belgium
IBD_CA	SDS for Canada
IBD_CH	SDS for Switzerland
IBD_CH_EX	Extended SDS for Switzerland
IBD_CN	SDS for China
IBD_CZ	SDS for Czech
IBD_CZ_EX	Extended SDS for Czech
IBD_DE	SDS for Germany
IBD_DE_EX	Extended SDS for Germany
IBD_DK	SDS for Denmark
IBD_DK_EX	Extended SDS for Denmark
IBD_ES	SDS for Spain
IBD_ES_EX	Extended SDS for Spain
IBD_NL	SDS for Netherlands
IBD_NL_EX	Extended SDS for Netherlands
IBD_NO	SDS for Norway
IBD_NO_EX	Extended SDS for Norway
IBD_OT	Generic SDS for Other countries
IBD_PL	SDS for Poland
IBD_PL_EX	Extended SDS for Poland
IBD_PT	SDS for Portugal
IBD_PT_EX	Extended SDS for Portugal
IBD_SE	SDS for Sweden
IBD_SE_EX	Extended SDS for Sweden
IBD_SI	SDS for Slovenia
IBD_SI_EX	Extended SDS for Slovenia
IBD_SK	SDS for Slovakia
IBD_SK_EX	Extended SDS for Slovakia
IBD_TH	SDS for Thailand
IBD_US	SDS for USA
IBD_EU	Generic SDS for European countries
IBD_EU_EX	Extended Generic SDS for Europe countries
IBD_FI	SDS for Finland
IBD_FI_EX	Extended SDS for Finland
IBD_FR	SDS for France
IBD_FR_EX	Extended SDS for France
IBD_GB	SDS for Great Britain
IBD_GB_EX	Extended SDS for Great Britain
IBD_HU	SDS for Hungary
IBD_HU_EX	Extended SDS for Hungary
IBD_IE	SDS for Ireland
IBD_IE_EX	Extended SDS for Ireland
IBD_IT	SDS for Italy
IBD_IT_EX	Extended SDS for Italy
IBD_JP	SDS for Japan
IBD_KO	SDS for Korea
IBD_LA	Generic SDS for Latin American countries
IBD_MX	SDS for Mexico

Raw Material Sinequa:

Document type

- CERTIFICATE
- SAFETY DATA SHEET
 - SDS - ASIA PACIFIC
 - SDS - EUROPE
 - SDS - INTERNATIONAL
 - SDS - LATIN AMERICA
 - SDS - NORTH AMERICA

Language

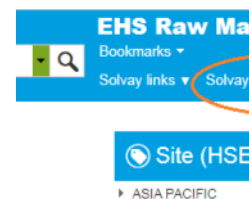

- 1X (Spanish_MX)
 - 3F (French_CA)
 - BG (Bulgarian)
 - DE (German)
 - EN (English)
 - ES (Spanish)
 - FI (Finnish)
 - FR (French)
 - IT (Italian)
 - JA (Japanese)
 - KO (Korean)
 - NL (Dutch)
 - NO (Norwegian)
 - PL (Polish)
 - PT (Portuguese)
 - SV (Swedish)
 - TH (Thai)
 - Z8 (EN (US) EHS ONLY)
 - ZF (Chinese trad.)
 - ZH (Chinese)
- Show less

Related Document Variants:

All Related documents are available in SAP EHS for the REAL_SUB_E. Only REACH compliance statements under variant RM_REACH are sent and as well available via Raw Material Sinequa.

RM_CMC	Conflict mineral certificate
RM_COA	Certificate Of Analysis
RM_FCS	Food Contact
RM_IPS	Internal Site / Plant specifications
RM_RDS	Supplier RDS
RM_REACH	REACH Info
RM_RMO	Raw Material Other
RM_RMRC	RM Regulatory Checklist
RM_SSS	Supplier Sales Specification
RM_SVHC	SVHC Statement
RM_TDS	TDS (Technical Data sheet from Supplier)

Guidance on the usage of the tool can be accessed directly in Raw Material Sinequa (right upper corner - Syensqo documentation):

Raw Material Sinequa

Raw Material Sinequa is a web based portal that easily allows to access supplier SDSs which are managed in SAP EHS under REAL_SUB_E records.

Tool contains right side panel for easy filtering by plant, SDS language, supplier, raw material category etc. Additionally, sites are able to perform search using SAP material number used for the purchase of the raw material or perform search directly with REAL_SUB_E number. Other search options are also available. Guidance on the usage can be found directly in Sinequa (right upper corner - Syensqo documentation).
