

# Margin Waterfall

Back to [Pricing Dashboard User Documentation](#) - Main Page

The aim the Margin Waterfall page is :

- Provide historical and forward looking view of costs by cost type.
- Historical data is sourced from the P&L while forecast data is calculated for each cost category & GBU ([FL ICM Calculation](#))

**Data accessibility is linked to the [visibility model](#), if your profile does not allow to see costs/ICM data, you will not have access to this page!**

## Margin Waterfall

Understand your costs breakdown and the evolution over time. For more details, use the "Margin Waterfall" data set in my data report.
