

Embed an "Awesome table" in a Confluence

Overview

An "Awsome table" is way to display a Google spreadsheet with advanced functionalities.

Create, manage and get some more info about it from the dedicated website: <https://awesome-table.com/>

This article describes the procedure to embed it into a Wiki page.

Pre-requisite: your must have permissions on the needed "Awesome table". If you do not, but can access a Google site using it, please follow this article: [Get an "Awesome table" embed code from a Google site](#).

Example:

Filtering capabilities in using Google Awesome Table based on data of spreadsheet

Agreement	Vendor Description	Vendor Country	Purchasing Group

embedded code
window.

and then click
the save

Info

It is recom-
mend-
ed to have
the style
**width:
100%**
for a better
display.

iframe

```
<iframe  
  e  
  style  
  =  
  "width:  
  100%;  
  height:  
  600px  
  " src="  
  embe  
  d  
  code  
  here"  
><  
/ifram  
e>
```
