

2.03/ Portfolio of work orders by status (how to)

To see the KPI definition and extraction rules go to [2.03/ Portfolio of work orders by status](#)

How to create your own KPI

We have splitted the board into 2 main parts :

- A: Total amount of work order of the week selected
- B: List of the status of WO for the last week

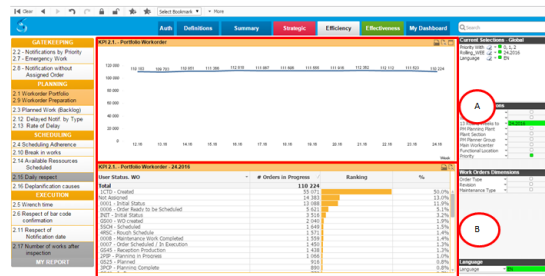

Figure 40 : how to make your own KPI

The option selection bar on the right will not be explained in this part, for more info go to [MECANO user manual](#) and take a look to "KPI options selection".
