

2.06/ Weekly scheduled adherence (how to)

To see the KPI definition and extraction rules go to [2.06/ Weekly schedule compliance](#)

How to create your own KPI

We have splitted the board into 2 main parts :

- A: Daily and Weekly scheduling adherence with the objective
- B: Total number of operations with the daily and weekly adherence rate per week selected

Figure 47 : how to make your own KPI

- The option selection bar on the right will not be explained in this part, for more info go to [MECANO user manual](#) and take a look to "KPI options selection".
- The selection tools works on the same scheme as the KPI [2.01/ Created notifications by priority \(how to\)](#)
