

Release Calendar 2026

Where to find it

The updated Release Calendar takes place, open it through [this link](#).

Modifications to the Release Calendar

If any change is required in the release calendar (for example requiring a longer UAT period), it must be raised with Release Managers at least 1 month in advance, in order to discuss the different possibilities and side-effect.

Example

For a basic understanding of it, check the next example with highlights of the Major, Minor, and Bugfixes for a given period of time.
