

LB - Data Force

Team mission

We, data-focused catalysts, **digitize R&I labs** and build a *secured, standardized, and centralized R&I Data Ocean* with intuitive solutions to empower researchers with **historical** and **optimized data**, aiming for a full adoption rate that generates a *15% lab productivity improvement, 10% non-duplicated lab experiments*, and boosts the time to market by 5%.

Data Force Team Jira Boards ([Design](#) & [Dev](#)): R&I Domain Data Ocean Backlog/Product

These boards are meant to track the development of the data ingestion from the multiple data entries to the R&I domain data ocean in GCP.
