

How to : build the project from scratch (SpP)

 This article applies to the project in **automation environment** or on the **master** branch of the design environment. For more explanation on the environments, please refer to [this article](#).

Manual datasets initialization

Manually create the following dataset by double clicking on it and accessing the "Settings" menu :

- All_run_versions_dataset_bq

Connection OK. Table does not yet exist. **CREATE TABLE NOW** TEST AGAIN

Launch scenario

Launch the scenario named "Prod reload" and make sure it runs successfully until the end.

<input type="checkbox"/>	Build SHAP values (id: BUILDSHAPVALUES) Modified 1 month ago	Auto-triggers <input type="checkbox"/> OFF No automatic execution
<input type="checkbox"/>	Data - Contracts (id: DATACONTRACTS) Modified 1 day ago	Auto-triggers <input type="checkbox"/> OFF No automatic execution
<input type="checkbox"/>	Data - Product composition (id: DATAPRODUCTCOMPOSITION) Modified 1 month ago	Auto-triggers <input type="checkbox"/> OFF No automatic execution
<input type="checkbox"/>	Data - Product Taxonomy (id: DATAPRODUCTTAXONOMY) Modified 21 days ago	Auto-triggers <input type="checkbox"/> OFF No automatic execution
<input type="checkbox"/>	Full reload (id: FULLRELOAD) Modified 7 months ago	Auto-triggers <input type="checkbox"/> OFF No automatic execution
<input type="checkbox"/>	Full reload (no extracts) (id: FULLRELOADNOEXTRACTS) Modified 21 days ago	Auto-triggers <input type="checkbox"/> OFF No automatic execution
<input type="checkbox"/>	Prod reload (id: PRODRELOAD) Modified 1 day ago	Auto-triggers <input type="checkbox"/> OFF No automatic execution
<input type="checkbox"/>	Run Hyperparams Opt (id: RUNHYPERPARAMSOPT) Modified 1 year ago	Auto-triggers <input type="checkbox"/> OFF No automatic execution
<input type="checkbox"/>	Data - Stockholding strategy (id: STOCKHOLDINGSTRATEGY) Modified 1 month ago	Auto-triggers <input type="checkbox"/> OFF No automatic execution

Check outputs

Check that the final BigQuery outputs in the "Dashboard outputs" Flow zone all contain data.
