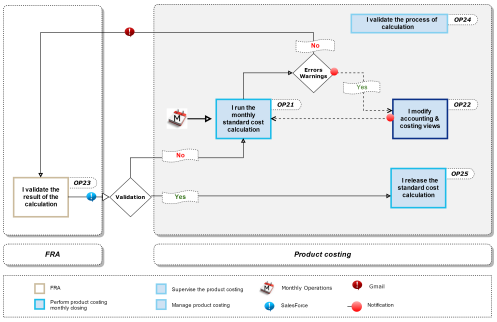
I release the standard cost calculation

Process: Product Costing

Responsibility area: Perform product costing monthly closing

The costing should be marked and the release scheduled after validation of the FRA on D-1 - 12pm



Guideline

The FRA must send by D-1 - 12pm its validation

Check Point

After completing the first 4 steps, the plant controller should analyze if the standard prices are correct and correct eventual errors. The next steps “Marking” and “Release” are only performed after plant controller approval. Before the marking, the first 4 steps can always be executed as much times as needed and must be repeated after controllers corrections to confirm that the errors were solved.

You can go to the step "Marking" when you receive the approval of the FRA

All error & warning messages are cleared (in some cases it is not possible to clear warning messages but at least a deep analysis must be performed)
