

Profile setting

blocked URL

Located on the right and at the top of the AGILAB application, the profile menu " Profile and preferences"

contains some information that is used to identify a user such as the name, the email, the user name, the organizations, the role...

Once you open the details page : you can adjust information concerning your identity

A screenshot of the 'Profile & Preferences' page in the AGILAB application. The page is titled 'SOLVAY ONELIMS QA' and shows the user's profile details for 'Meriem Baghdadi'. The page is divided into several sections: 'Identity' (Title, First Name, Last Name, Phone Number, Email), 'Photo' (Choose File, Download), 'Signature' (Choose File), and 'Roles' (Equipment Manager, Inventory Manager, Requester). The 'Roles' section includes descriptions for each role. The 'Profile' section is highlighted in blue, and the 'Organizations' section is also visible.

In the profile setting you can also :

- Define your Primary Organization
- Define the Default RIC where you are used to send requests
- Choose the language : English
- Save your changes

Search Meriem Baghdadi
