

Customer Prototypes and Partnerships

Syensqo has printed a significant amount of customer prototypes in order to enhance customer engagement and increase their potential interest in Syensqo materials. Unfortunately, all of this work is covered via NDAs and cannot be detailed here. In case of interest in this type of work with customers, please contact Celine Parascan (celine.parascan@syensqo.com), who currently handles most of the coordination of these types of efforts. Alternatively, Chris Ward (chris.ward@syensqo.com) can also be contacted for more direct print requests. Each inquiry will be handled on a case-by-case basis.
