

Variable Compensation

Variable Compensation

INTRODUCTION

Variable compensation is the part of total cash compensation that will vary in amount from year to year considering the performance of the employee individually, the Entity and the Group.

There are multiple types of variable compensation and recognition programs that can be short term (evaluation of achievements and performance less than one year) or long term (evaluation cycle longer than one year) as well as different considering the type of program – is it local or group-wide.

VARIABLE COMPENSATION: Locally Graded Employees (S14 and below)

Locally Graded Employees (S14 and below) are eligible to participate in the [Global Performance Sharing](#) program intended to provide a motivational benefit that recognizes employees' contributions by involving them in the Group's results at the global level, thereby strengthening their sense of belonging to the Syensqo Group.

In addition, specific Short Term Incentive programs at local (country) or GBU level can be prevalent and are intended to recognize individual or team achievements, similar to the objectives of the Syensqo STI plan (see below).

For more about these programs, please contact your local HR representative.

VARIABLE COMPENSATION: Globally Graded Employees (S15 and above)

Short Term Incentive (STI) plan

S15 and above graded employees (except employees on Syensqo's Sales Incentive Plan - see below) are eligible to participate in the Syensqo STI plan, which is designed to reward employees for the results delivered by individuals, by teams, and by the Group as a whole, thus reinforcing our culture and working as ONE Team.

The Bonus Target is determined as a percentage of annual base salary for positions graded at S15 and above and has been set by region and grade. For grades S23 and above, the Bonus Target percentage of annual base salary is set globally and is the same in all countries.

RECOGNITION PROGRAMS

Recognition programs are periodical or ad-hoc (as needed, "spot") award programs that can be monetary or non-monetary programs to formally recognize achievement, a performance, a behavior or celebrate the success of a particular initiative, project or individual contribution.

There is a wide spectrum of recognition programs in Syensqo that are usually GBU or country specific, with the exception of the **Syensqo Special Recognition Award** program, which is consistent around the globe in multiple GBUs/Functions.

The Syensqo Special Recognition Award program is designed to provide a cash vehicle for recognizing individual employees or small teams for outstanding achievement that clearly demonstrates elements of Syensqo Management and People Models.
