Display layout of the report

Press and it will appear the screen for the posting's data, as follows :

Fill in with the information on print screen (same account, ttype and doc type)

Data for posting	
Document type	SA
Debit key	40
Credit key	50
Finished Products	
Stock G/L account	37000305
Stock variation G/L account	98350080
Goods for Resale	
Stock G/L account	37000300
Stock variation G/L account	98150998
Purchase G/L account	98150366

For information :

Finished Products: Stock in transit adjustment on standard sales flow; adjustment on "direct-shipment" inter-company flows still belonging to the commettant (inter-company flow without IV and F2 invoicing); adjustment on direct-shipment flows.

Goods for Resale: Stock in transit adjustment on "direct-shipment" inter-company flows with transfer of ownership to the agent (inter-company flow with IV invoicing but without F2 invoicing).

This transaction can be made first in simulation mode to check the information, by flagging the "simulation" field ☒ Simulation and unflagging the "automatic execution" field ☐ Automatic execution. Then, to run in real mode, unflag the the simulation field and flag the "automatic execution" field. Also, fill in the name for the batch input:

Batch input name for posting ZWFATR_ZFR3

Execute  and the following screen will appear:

Batch Input Documents

Batch Input Documents	
FB012	Session 1 : Special character for 'empty field' is /
FB007	Session 1 session name ZWFATR_ZFR3 was opened
FB008	Session 1 session name ZWFATR_ZFR3 was created

Return by clicking twice in 

It will appear the billings that the batch input will make the stock in transit adjustment

Process the batch input in transaction SM35. Check if the batch does not have any error. The name of this job contains "ZWFATR_XXXX" (XXXX is the company code)

Second check

Another check is related to accounts 37000305 and 37000300.

Go to FBL3N and select the previous accounts.

Select the all items from 01.MM.2014 until 31.MM.2014

Once in these accounts a filter must be done by the session name: "ZWFATR_XXXX", where XXXX is the company code.

The total of these 2 accounts, with the filter, must be the same than the total of the postings done by ZWFAT135.

In case of inconsistencies check the billings in account and in batch.

Reverse

Go to transaction F.81 to reverse in the first day of the following month the postings performed by stock in transit adjustment and choose the variant TRANSIT_XXXX (Where XXX is the company code):

Check if invoices are issued after the reintegration in stock ZWFAT135

Regarding the **ZWFAT135** automatize, it is necessary to check if there are no invoices issued after the reintegration in stock in transit.
If there is, is necessary to reverse the posting of the **ZWFAT135**.

After OB52 is closed, go to transaction **FBL5N** and select the variant indicated in the task in the correspondent SCMA task list.

NOTE: This extraction is to select all invoices issued with a posting date on the closing month M but with a creation date in D1: M+1
