

CTI (Comparative Tracking Index)

Principle

This test method evaluates in a short period of time the low-voltage (up to 600 V) track resistance or comparative tracking index (CTI) of materials in the presence of aqueous contaminants.

Capabilities

- ASTM D3638
- IEC 60112

Assets

	Asset	Details
	CTI (Comparative Tracking Index)	low-voltage (up to 600V) track resistance
