

5.1 - Dynasys => BW

Export Forecast Demand Review

- Macro = **TECH : Export Forecast Demand Review**
 - 06:00 CET in the batch "Export DR flag"
 - 13:00, 17:00, 22:00 CET in the batch "Export DR"
 - It is executed first in **DPx**
 - 4 times each day :

- The objective is to fulfill the table **EXP_FORE_DR** that is extracted by BW
 - the column `app_name = dynasys_dpx` allows to manage and to make distinction between data from all DP instances.
 - the extraction from BW occurs at 07:00, 14:00, 18:00, 23:00 CET (it takes 45 min)
 - data are available in BW reporting half an hour later
