

a. GBR Shipto KA

 For detailed information please refer to document: [ZBW_GBR - User Guide](#) tab '4.0 - Key Account link'

ZBW_GBR - GBU KEY-ACCOUNT (KA) link

Authorization

This function is open to **Corporate and data-stewards**
It does not need special access rights

As the GBU is not a part of the assignment key, no need to be granted to one special GBU in BW

XLS file template

nb : first line of the file used only for HEADERS (not loaded)

key	Source code	Ship-to code	Product code	KA code	Deletion flag
values	PF1_020 WP1_400	as in SAP	RCS: commercial product PF1: Material Group	RCS : GBR corp. Customer group GRCL2xxxxx PF1 : SAP customer group	X or null

REMINDER : only existing corporate customer groups values can be assigned as Key-Account

RCS : Key-Account assignment by ship-to and commercial product could be done only using an existing GBR corporate customer group (GRCL2xxxxx)

PF1 : Key-Account assignment by ship-to and material group could be done only using an existing SAP corporate customer group

Non-SAP : Key-Account assignment by ship-to and commercial product could be done only using an existing GBR corporate customer group

WARNING : for PF1 previously managed in BI4, we should we change the rule and mapping of PF1 customers and GBR corporate groups should be updated in BW

Where could I find it in the ANALYTICS dashboard ?

Warning : in ANALYTICS dashboard, codes are not available for GBR data, only texts can be used.
