

6.8 - Once A Month after 15th

Purchase to forecast (phase 1) (A daily job is scheduled to upload the Program/Market and PTF which Dynasys generate.)

A program is adding PTF to all finished good materials. This will drive the demand for all the finished goods and raw materials. ZMC demands in MD04 as expected show in new strategic demands for Oes.

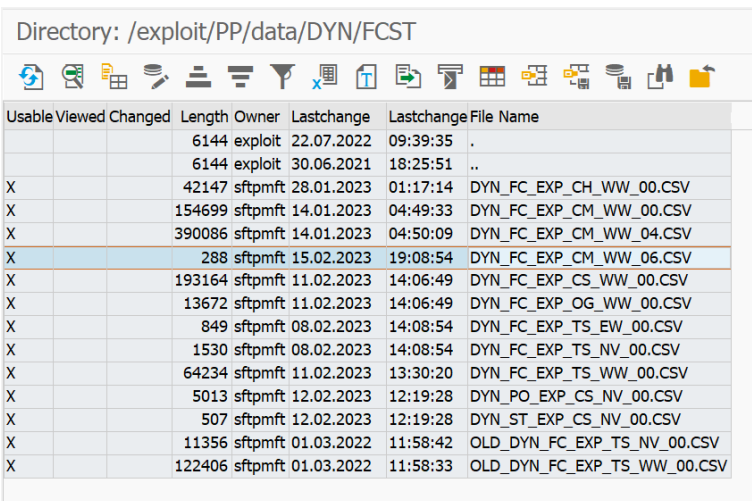

PTF Flag is exported independently to BW/SAP, then DynaSys will export via EXP_SAP_PROG_BW

Current Procedure

- Lei get manually the file generated on Dynasys server using a shared folder
- Lei loads manually the file **the Friday of the second week of the month** into SAP - monthly frequency - same as the forecast releasing day for Composites

The flow is **100% manual** and Lei is catching the file directly using a shared folder accessing dynasys server.

Lei should be granted with (ReadOnly) access to this Dynasys shared folder `\\asew1pdscapp01.oxo.priv\dynasys_if`

Application	Instruction	Screenshot
