

eCommerce

All the documentation related to eCommerce is available <https://drive.google.com/drive/search?q=eCommerce>

How to connect to the website:

[eComm - Reference tests](#)

Depending on the company, the same URL is used, except for the extension:

/ecom/... = Solvay

/ecom1/... = BASF

/ecom2/... = DOMO

/ecom3/... = Odyssey

Update catalog for e-commerce in WP2 and PF2:

The program ZWOC_ECOMT02020 is scheduled to be executed every hour with the dedicated job OC_ECOM_CATALOG_FIORI.

In WP2, there are 2 steps in this job: 2 variants for the program ZWOC_ECOMT02020 : one for SYENSQO and one for SOLVAY - only 1 step in PF2 (SOLVAY)

The goal of this program is to create or update the product catalog table zwebt020n

See [FSD Ecommerce - product catalog creation](#)

Note about delivery block in PF2 :

Table ZZV_OF_UE_CHECK is managing an entry to apply a delivery block **CE** in automatic for Ecommerce sales orders.

The entry for Ecommerce (PROGR = ECOMMERC & SUBPROG = **LIFSKSET**) is called from the Ecommerce BAPI (ZWOC_ECOM_ORDER_CREATE)
