

MSP: Regulatory Questions & Quality Questions (Customer Requests)

Pre-requisite

Users that have access to Regulatory Questions tile (Customer Requests):

- Profiles = MSP Customer Community Plus or CEP Partner user
- Markets = At least one Market assigned to the contact to be able search product documentation/details and create records

Table of contents

- Definition
- Accessing points
- Detailed Capabilities
- Customer Requests list
- Customer Request Details
- Customer Request Creation
 - Reach Products

Definition

This capability allows users to create Customer Requests and see the records shared between them and Syensqo that were created from the portal and belong to their account corporate group.

Accessing points

This capability can be accessed through several points in MSP detailed below :

- Homepage and 3 dots menu

Detailed Capabilities

MSP user can access to :

- Customer Requests list
- Customer Requests details
 - Linked to a specific Customer Requests, case comments is available for MSP users and Syensqo internals to be able to comment the case.
 - Attach files to a specific Customer Request
- Create a Customer Request
- Consult Regulatory Questions Disclaimer

Customer Requests list

This list presents all Customer Requests belonging to distributor corporate account that have been created from MSP, for customers only their own customer requests appear.

It is presented in a table with the following columns :

- Request Number

- Date/Time
- Account Name
- Type
- Subject
- Product
- BU
- Status

The list is presented in pages (10 per page)

The list can be filtered through :

- My Questions (Disabled by default)
- Request Number
- Type
- Country
- BU
- Status
- Product
- General search that searches the filter values

Every filter accepts multi-selections. The header of each column allows a sort the records.

The field Request Number is in orange. It is a link to access to details of a Customer Request, opening a new page.
