

Coating for Electrification

 A schematic diagram of a battery cell component. It shows a grey, textured rectangular shape with a central vertical slot. On either side of the slot, there are two vertical channels. Each channel contains three orange circles, representing cells or components. Blue lines outline the channels and the central slot.	<p>Slot Liner Alternative</p>
 A photograph of a grey metal cooling plate. The plate has several vertical channels or slots. The text "cooling plate" is overlaid in the top left corner of the image.	<p>Coating for Battery Cooling Plates</p>
