User adoption (to define/not released)

Definition

User adoption features will be added, in order to be able to track how users are using the app.

- Number of days a user was connected
- Last connection date

Jira Issue

Scenario

- Given xxx
- When xxx
- Then xxx

Future improvements

Features usage (to define/not released)

Definition

The aim is to be able to track some a feature's usage so that planning and prioritization can be done according to these information.

Jira Issue

Scenario

- Given xxx
- When xxx
- Then xxx
