

Together, we are here to propel Syensqo forward. Below, you will find the initiatives on which IT is currently planning or delivering on.

An aerial photograph of a park area with green trees and a grey path. A large, dark shadow of a person walking is cast across the path, symbolizing progress and forward movement. The Syensqo logo is visible in the bottom left corner of the image.

Below, you will find a live overview of the number of projects we are undertaking across various GBUs, BSAs, and Programs. Additionally, you can view the different topics around which the IT portfolio is centered.

Our projects which are currently being implemented

A rollout is the process of deploying a solution or initiative across different parts of an organization, such as specific GBUs, plants, countries, or product ranges. It is needed to ensure **consistent implementation and maximize the value** of existing solutions.
