

Release Management

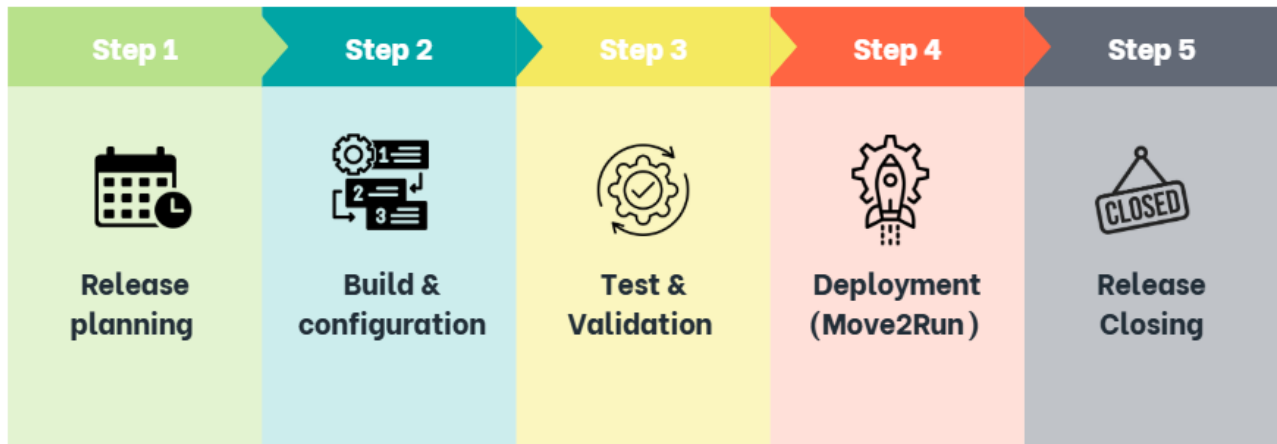

Objective

Our goal is to ensure that **new or changed IT services** are delivered **efficiently, securely, and with minimal disruption** to existing operations.

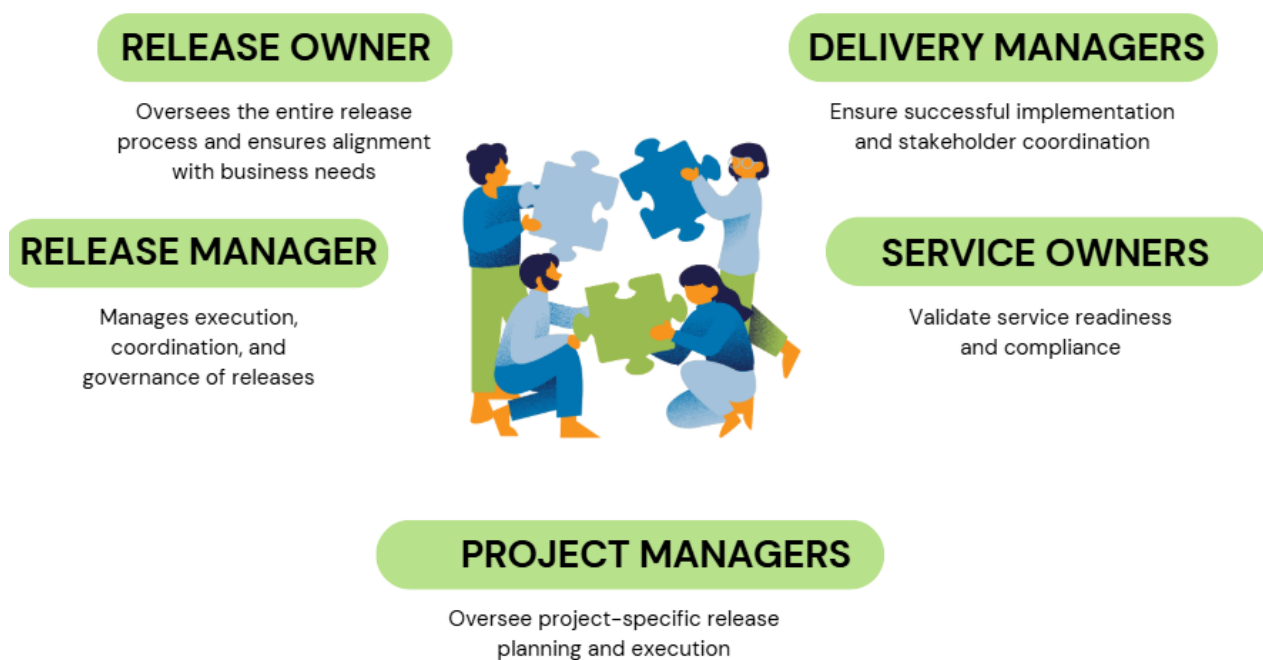

Scope

It covers the **entire release lifecycle**, from **planning and building** to **deployment and hypercare**, ensuring seamless integration into the IT environment. Its stakeholders are internal IT teams and IT service providers.

Main activities

Main roles & responsibilities

Useful contacts

 Release Process Leader: To be completed by the new team
