

Product Stewardship - Home page

Mission of the Product Stewardship team

The Product Stewardship team is there to ensure the compliant, safe and sustainable use of our products worldwide in line with our Responsible Care commitment.

Our mission is to provide expertise, support and strategic insight to facilitate Syensqo's growth and guide toward a sustainable future by

- => anticipating upcoming regulations and societal needs,
- => responding to increasing customer's expectations,
- => fostering the development of more sustainable product solutions that benefit society
- => and applying social responsibility throughout the life cycle of our products.
