

Product Stewardship - Turkey REACH - (Updated 2025)

KKDIK

THE TURKISH REGULATION ON CHEMICALS REGISTRATION, EVALUATION, AUTHORIZATION AND RESTRICTION On the 23th of June, 2017, the Turkish Ministry of Environment and Urbanization (MoEU) has issued the promised Turkey **KKDIK**, regulation that will be enforced from 23 December, 2017. The Turkey REACH like-law: **KKDIK** is closely harmonized with the EU REACH provisions and requires companies to pre-register and register substances (on their own, in mixtures or in articles) manufactured in Turkey or imported into Turkey with volumes equal to or above 1 tone per year. **KKDIK will replace following regulations:**

Regulations	Effective date
– The Inventory and Control of Chemical Regulation (KEK)	23 June, 2017
– Regulation on Restrictions for the Manufacture, Marketing and Use of certain Dangerous Substances and preparation	23 December, 2017
– Regulation on Safety Data Sheets for Hazardous Substances and Mixtures (GBF)	31 December, 2023

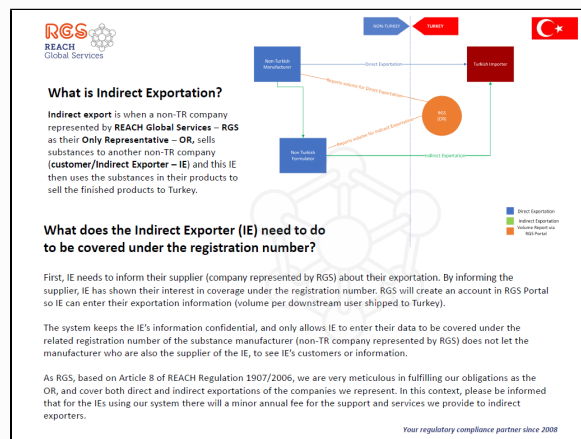

Main obligations under KKDIK
