1. How to retrieve data sources on Real Time Board

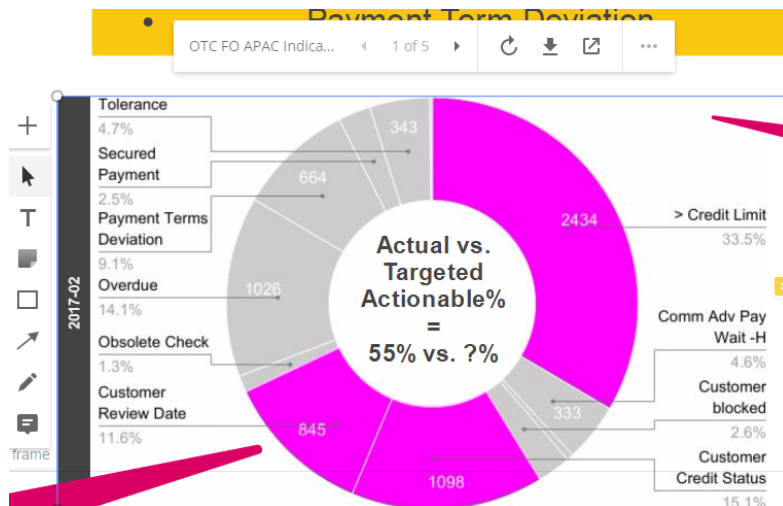

This chart describes blocked order cases by reasons. If an order has two reasons for credit block, it is counted as two cases in respective block reason categories. We focus on three main reasons:

- 1. Credit limit over
- 2. Customer review date in the past
- 3. Customer credit status

Data source

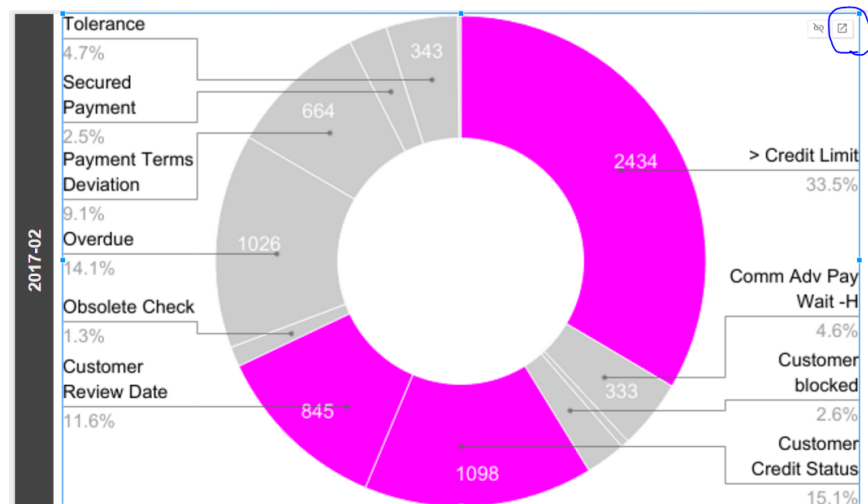

When we use the select mode  , we can reach the graphic source by clicking the source bottom  .

Or you can get there directly from [here](#).

This graphic has the link to the data source spread sheet. It has a source bottom  . Go to th2RawData_BW".

You can go to the tab directly from [here](#).

Like wise when you look at the RTB, you can retrieve pie charts, graphs, and its data source spread sheets.

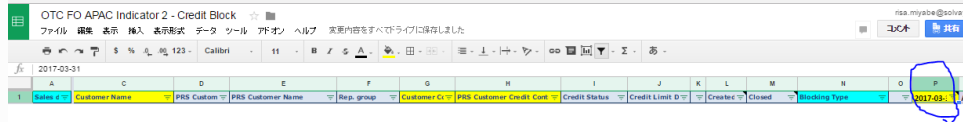

2. How to update indicators

Monthly order block reason analysis

1. Refresh a BW query - [CreditBlockIN_CL&RiskCategory](#) - sheet "Blocked orders detail" with the end of the reporting period date.
2. Clean previous month data in "[RawData_BW](#)" from to A2:Oxxx in the Google sheet "

".

Title row

- Please do not over write the first line A1:O1
- Insert the end of the month date you are reporting in Pa. The cell P1 with the format "yyyy-Mmm-ff".

- Copy BW data from A12 to Onnnn and paste on the sheet "RawData_BW" from A2 to the end of the data. A2:Oxxxx - depending on the number of blocked orders in the reporting month.
 - Modify date and credit limit data format for Google spread sheet. BW date format is dd.mm.yyyy whereas google spread sheet has yyyy/mm/dd.

Format change

You can convert the data format with the excel file [Format change](#).

i Copy BW data ([CreditBlockIN_CL&RiskCategory](#)) "Created" and "Closed" from L12:M12 to the end row.

ii.Paste on the BW Raw Data - cell L2.

Copy F12:Gxxxx

- Modify credit limit data format for Google spread sheet. BW amount format is nnn.nnn.nnn,nn EUR whereas google spread sheet nnnnnnnnn.nn.

Format credit limit

You may copy the column M to N with text format.

i Replace " EUR" with null "".

ii. Replace period mark "." with nul "".

iii.Replace comma "," to period mark ".".

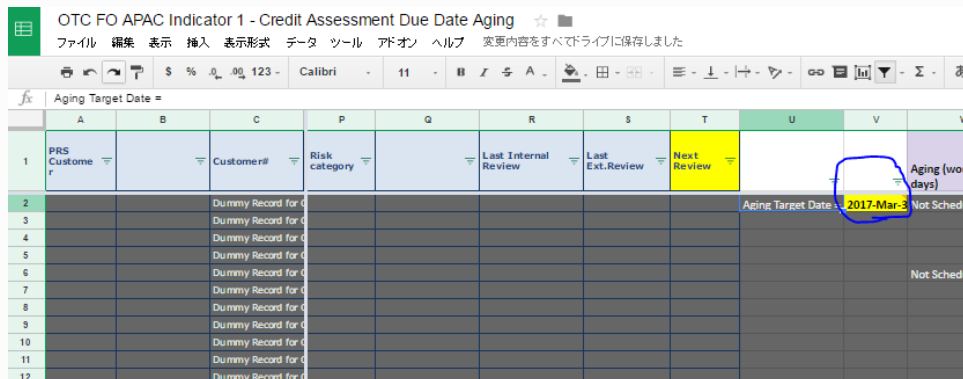

Copy N12:Nxxxx (BW_Data_format excel file) and paste to column J "Credit Limit Data" in the google sheet "RawData_BW".

- "Dashboard" tab is to be refreshed.
- Click "Team board view"
- Team board view is to be refreshed.

Credit Assessment Review Due Date, Aging (Credit Status = Open Credit) (One month to go)

- Refresh a BW query - [BW_QRY_MVFIAR01_0002](#) - sheet "Blocked orders detail" with the end of the reporting period date.
