Edit Or Modify Secondary Inputs	N	Y(Only for his Site)	N	Y
Save /Change the status	N	Y(Only for his Site)	Y(Only for his Site)	Y
View Tableau Dashboard	Y(Only for his Site)	Y (Only for his Site)	Y(Only for his Site)	Y

Responsible & contact points:

- **Alessandro Mainardi - Project Owner**
- **Simon Bourguignon - Delivery Manager**
- **Alba Carrero/ Gaetan Frenoy - Product Owner**
- **Rui Ferraz - Project Manager**

2.3 - User Access request

1. All user access requests ha to follow the usual process. [Access Management Request](#)

It is required to select the sites/applications the user want to access based on the list below:

- Industrial - Robustify Energy Optimisation Solution - Dombasle
- Industrial - Robustify Energy Optimisation Solution - Torrelavega
- Industrial - Robustify Energy Optimisation Solution - Rosignano
- Industrial - Robustify Energy Optimisation Solution - Rheinberg
- Industrial - Robustify Energy Optimisation Solution - Devnya
- Industrial - Robustify Energy Optimisation Solution - Bernburg

2. When a ticket is created it will automatically be assign to the Helix support group "Industrial Business Support".

The access to the Web Application will be provided by someone within that group having admin access to the application.

3. When this access is done the ticket must be send to Tableau support

- Add within the comment the proper Tableau Folder that must be used. Change the Red part by the correct application request. Within the "add a note". Check the "public" box and then post the message.

"Could you provide the access to Tableau and the application Explore/SOLVAY/PRE-PROD Solvay/Robustify UAT/**Robustify Dombasle**

Activity Resources

Could you provide the access to Tableau and the application Explore/SOLVAY/PRE-PROD Solvay/Robustify UAT/Robustify Dombasle

Public Type: General Information

@  Post Cancel

- Then assign to the correct support group by clicking the pen next to "Support Group" as below.

Assigned To 
None Set

 Assign to me

Support Group 
Industrial Business Support

Remove all existing filters and search for "Tableau". You can finally select the "IT Data Stellar L2 Tableau"

Update Assignment

Assignee Request Manager

Auto-assign to the best fit group Assign to me

Support Company: All Support Organization: All Support Group: All

Search:

IT Data & Analytics - DataViz (Tableau.Grafana.Calame.Mappy)
IT Data Stellar L2 Tableau
IT Data Stellar L3 Tableau
