https://support.sap.com/en/release-upgrade-maintenance.html#section_1969201630

2) About versioning of SAP HANA Studio

About the version of SAP Hana studio and Hana database version

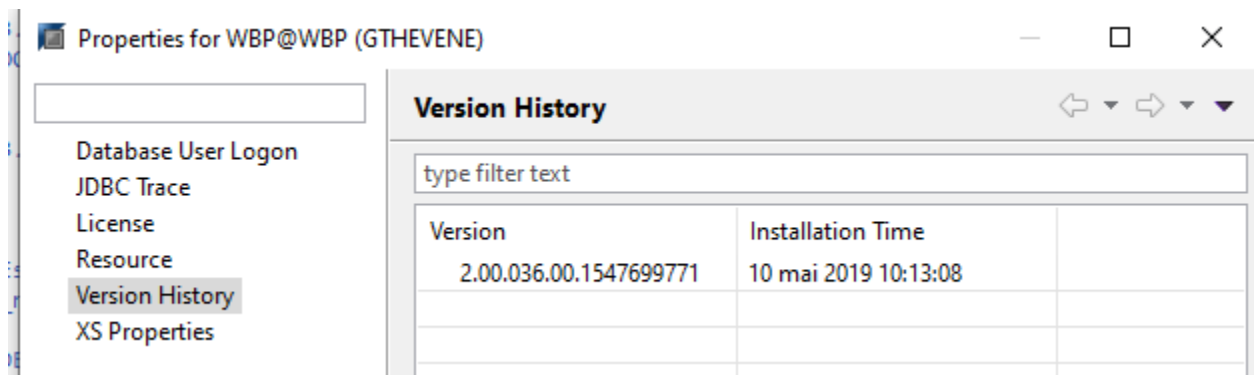

One important oss note to follow :

2375176 - SAP HANA Revisions and SAP HANA Studio Versions

<https://launchpad.support.sap.com/#/notes/2375176>

In SOLVAY landscape at the date : Thursday, January 14th 2021

SAP Hana database version :

The screenshot shows a window titled "Properties for WBP@WBP (GTHEVENE)". On the left, there is a list of property categories: Database User Logon, JDBC Trace, License, Resource, Version History (highlighted), and XS Properties. The main area displays the "Version History" tab, which includes a search filter "type filter text" and a table with the following data:

Version	Installation Time	
2.00.036.00.1547699771	10 mai 2019 10:13:08	

2.00.036.00.1547699771 (installation done 10.05.2019 10:13)

So SAP hana studio version is 2.3.42 (following the SAP OSS NOTE 2375176)
