

# GBR files from BW

Since GBR migration from BI4 to BW (on 25-26th of August 2020), we receive daily files from BW, with GBR PAX data only (as only PAX users still work in BI4)

Name of BW files :

ZBW\_Corp\_Cust\_Group\_Ref.csv  
ZBW\_Corp\_Cust\_Group\_Link.csv  
ZBW\_Corp\_End\_Use\_App.csv  
ZBW\_Corp\_End\_Use\_Mkt.csv  
ZBW\_Corp\_End\_Use\_Seg.csv  
ZBW\_GBU\_Cust\_Group.csv  
ZBW\_GBU\_End\_Use\_REF.csv  
ZBW\_GBU\_End\_Use\_Link.csv  
ZBW\_GBU\_Mat\_Group.csv  
ZBW\_GBU\_Segment\_Ref.csv  
ZBW\_GBU\_Segment\_Link.csv  
ZBW\_Key\_Account.csv

Process chain is set to create file only working day

The screenshot shows the 'Maintain Start Process' dialog box in SAP. The 'Start Time' section is expanded to 'Date/Time', with 'Scheduled Start' set to 'Date: 29.07.2020' and 'Time: 01:00:00'. The 'After Job' section is selected, and a 'Start Date Restrictions' dialog box is open. This sub-dialog has 'Factory calendar' selected, with 'Calendar ID' set to 'BE'. Under 'Calendar-Driven Job Execution', the option 'Not on Sundays or public holidays' is selected. The 'Periodic Job' checkbox is checked. At the bottom, there are buttons for 'Period values' and 'Restrictions'.
