Hello Laurence,

I got the confirmation from Catherine to stop CDB.

One less application to test/validate. 😊

Regards,  
Saints

Hi Saints

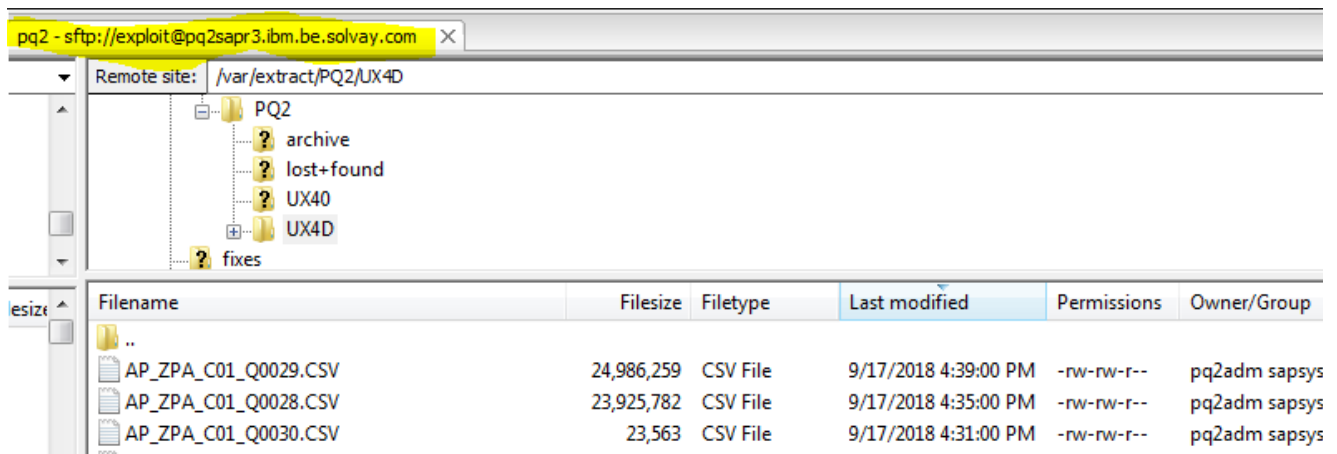

I thought It was already stopped. Is CDB used for another purpose that the former broadcast?

## **Directory: /var/extract/PQ2/UX4D**

Useable	Viewed	Changed	Length	Owner	Lastchange	Lastchange	File Name
X			23925453	pq2adm	19.09.2018	13:06:26	AP_ZPA_C01_Q0028.CSV
X			24972468	pq2adm	19.09.2018	13:09:40	AP_ZPA_C01_Q0029.CSV
X			25083	pq2adm	19.09.2018	13:01:47	AP_ZPA_C01_Q0030.CSV

-1- Files DAILY created on PQ2

-2- Files sent from /var/extract/PQ2/UX4D(PQ2SAPR3 server-solax090) to /exploit/arrivee(UX4DB server-solax005)

**/var/extract/PQ2/UX4D is a shared folder, should be configured to let the account BIM, exploit read/write permission.**

-3- on UX4 : creation of tar files "tar -cvf - AP\_Z\*.CSV | compress > ICARE\_CDB\_\$(TIMESTAMP).tar.Z"

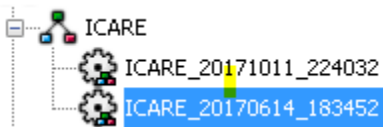

## **GRAPH ON .... Which side UX4 or PQ2 ??? (to be completed)**

Application name-ICARE

GRAPH- ICARE\_20170614\_183452 // GRAPH-ICARE\_20171011\_224032

job : TRANS\_FTP\_ICARE (pulls the file from Ux4db (var/extract/PQ2/UX4D) to location (exploit/arrivee))

?? First log: ftp\_msg\_CDB\_18092018\_103839

### **Reminder Graph :**

Graph name: ICARE.

Applications:

- INTEGRATION
- POST\_TRAITEMENT
- PRE\_TRAITEMENT
- TRAITEMENT\_HEBDO
- TRANS\_FTP\_ICARE
- TRANSFERT
- VERIFICATION

## UX4 side

Connected to [ux4db.ibm.be.solvay.com](https://ux4db.ibm.be.solvay.com).

```
sftp> cd "/var/extract/PQ2/UX4D"  
sftp> lcd "/exploit/arrivee"  
sftp> mget AP_Z*.CSV
```

**File "/var/extract/PQ2/UX4D/AP\_Z\*.CSV" not found.**

```
sftp> quit
```

**AP\_Z\*.CSV not found**

Examples of IBM tickets : **SR68090 / IN21143660**

Hello Laurence,

- **NFS** (Network File System).
- mount

It allows you to **mount** your local file systems over a network and remote hosts to interact with them as they are **mounted** locally on the same system.  
It works like a shared folder in windows server.

The directory /var/extract/PQ2/UX4D of PQ2 is mounted to ux4d.

No script is used to download the files from PQ2 into ux4d, it's a shared directory(folder).

Regards,

Saints
