

# GBU Assignment in C\_ITPO

## GBU Assignment in C\_ITPO

The GBU (Global Business Unit) and the BU (Business Unit) are now also calculated in C\_ITPO master data.

Here is the explanation of the code.

First, we select records from **ODS\_SCL1** for the \*urchase Order Number and Item\*.

- If \*O\* has a \*aterial\* and a \*lant\*
- We look in\* \_MATPLNT Material plant master data to find Profit center, Controlling area, GBU and BU
- Else, if \*O\* has a \*ontrolling area\*and a \*rofit center\*in \* DS\_SCL1\*
- We look in\* PROFIT\_CTR Profit center master data to find the GBU and BU
- Else, if \*O\* has a \*upport of costs\*in \* DS\_SCL1\*
- If\* ccount assignment category in DS\_SCL1\* =\* K'  
We look in\*C\_KSTRG \*upport of costs master data the profit center and then we look in\*0PROFIT\_CTR Profit center master data to find the GBU and BU
- If\* ccount assignment category in DS\_SCL1\* =\* F' or Y'  
We look in\*0COORDER\* Order number master data the cost center and then we look in\* \_COSTCTR Cost center master data to find the GBU and BU
- If\* ccount assignment category in DS\_SCL1\* =\* P'  
We look in\*C\_WBS\_ELE WBS Element master data the GBU and BU
