Broadcast list for KA (Key Account)

(created Dec 2016 SMI)

Example ticket n° 107 790 (<https://sbs-support.solvay.com/helpdesk/tickets/107790>) — **This link is obsolete now**

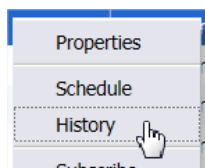

In the ticket the user always joined this kind of file :

KA Report with MARKET-PRICE CONTRIB-MARGIN EP				
Group	Global Account Manager	MARKET	GRCL	Amendment
ELRING KLINGER	A. Weinmann	AUTO	GRCL200216	A ajouter
VISTEON	C. Shaw	AUTO	GCRL200288	A enlever
VISTEON	Jeff Lee	AUTO	GCRL200288	A AJOUTER
SMR	Rohit Mahajan	AUTO	GRCL201082	A AJOUTER
SMR	Jeff Lee	AUTO	GRCL201082	A enlever

The query is in the folder below :

Title	Type	Last Run	Instances
CHEM-I-PLAST_EPEUPPE_001	Publication		1
Daily Sales - RPSIPL : 1646071 : 1664219	Web Intelligence	Dec 13, 2016 5:44 AM	7
EP_SCHEDULING	Microsoft Excel		0
EP_Scheduling	Web Intelligence		1
FR PROFITABILITY	Publication		1
KA Report with MARKET-PRICE CONTRIB-MARGIN EPWWPPE_R001	Publication		60
ORDER BOOK_right	Publication	Dec 13, 2016 6:17 AM	3
SALES REPORT with INTEGRATED & MARKET MARGIN_EPWWPPE_R001	Publication		32

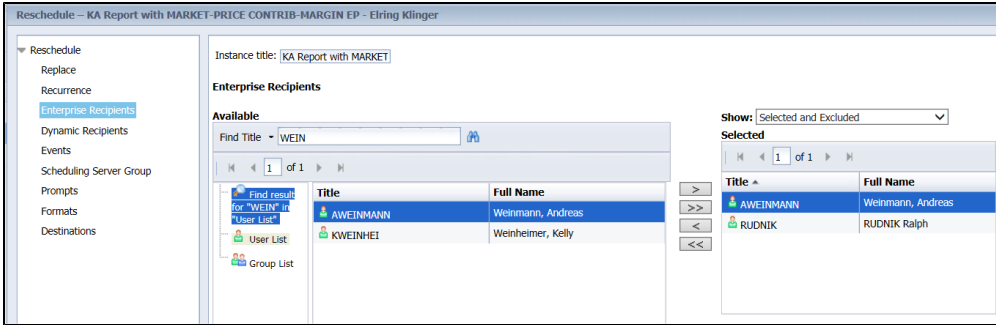

Right click / History

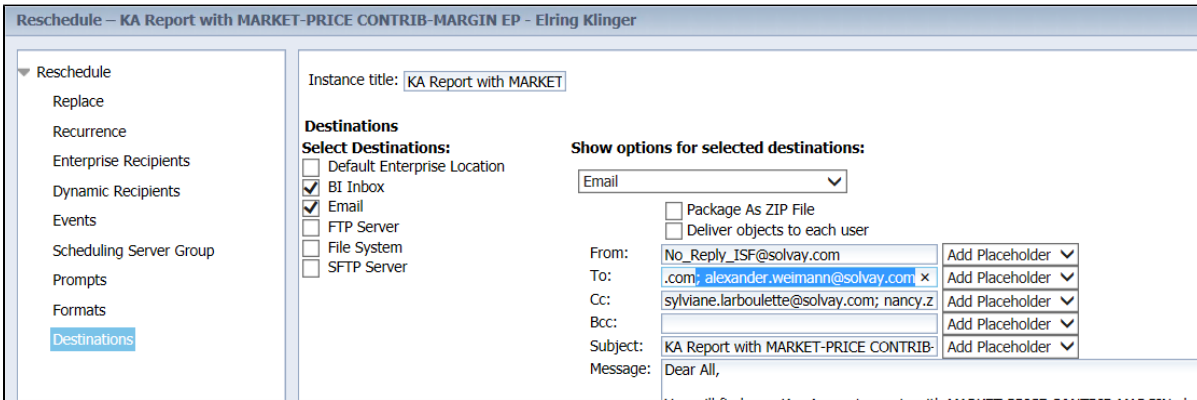

For example for the first one, the user wants to add user A.Weinmann to the instance for Elring Klinger. Right click / Reschedule.

Instance Time	Title	
Dec 9, 2016 4:41 PM	KA Report with MARKET-PRICE CONTRIB-MARGIN EP - SMR	
Dec 9, 2016 4:39 PM	KA Report with MARKET-PRICE CONTRIB-MARGIN EP - Elring Klinger	Instance Details

Dec 9, 2016 4:32 PM	KA Report with MARKET-PRICE CONTRIB-MARGIN EP - Kongsberg	Pause
Dec 9, 2016 4:30 PM	KA Report with MARKET-PRICE CONTRIB-MARGIN EP - Visteon	Run Now
Dec 9, 2016 4:20 PM	KA Report with MARKET-PRICE CONTRIB-MARGIN EP - ITW	Reschedule
Dec 9, 2016 4:18 PM	KA Report with MARKET-PRICE CONTRIB-MARGIN EP - Ficosa	

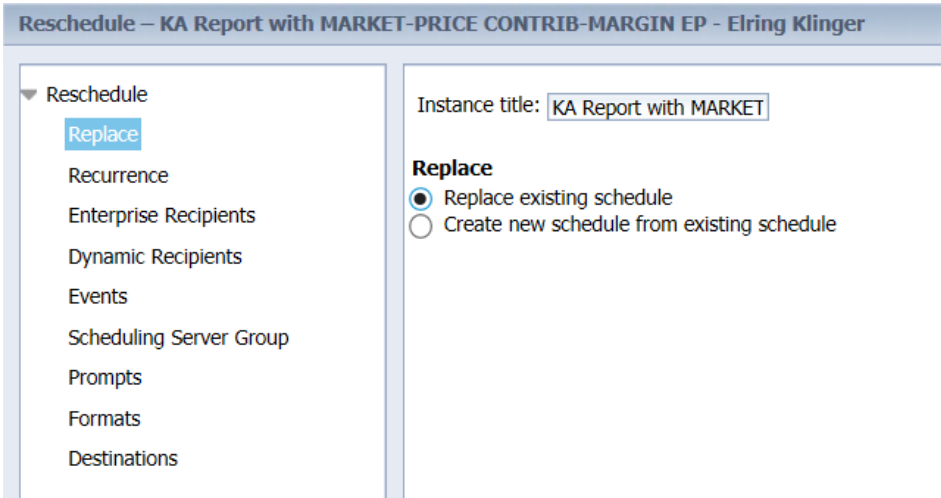

First, in Enterprise Recipients add the user, so that he can receive it in his BI4 mailbox :

Second, in Destinations Mail add him in recipients list

And finish by replacing the current instance before clicking on Schedule button.

Particular case

the requester wants to delete someone of the recipient list. Consequently there is nobody in the list. The instance can be paused :

Checking existing broadcast settings

To check the existing broadcast settings you have 2 solutions :

- Analyse via the Qlikview Broadcast Dashboard (<http://qlikview.solvay.com/index.htm>) : this has graphics, classification and search functionality but is only updated once per month.
- Download the raw data using the Saint's Tools [Scheduling Instances](#) page. This will provide the raw data in excel.

Monitoring broadcast schedules

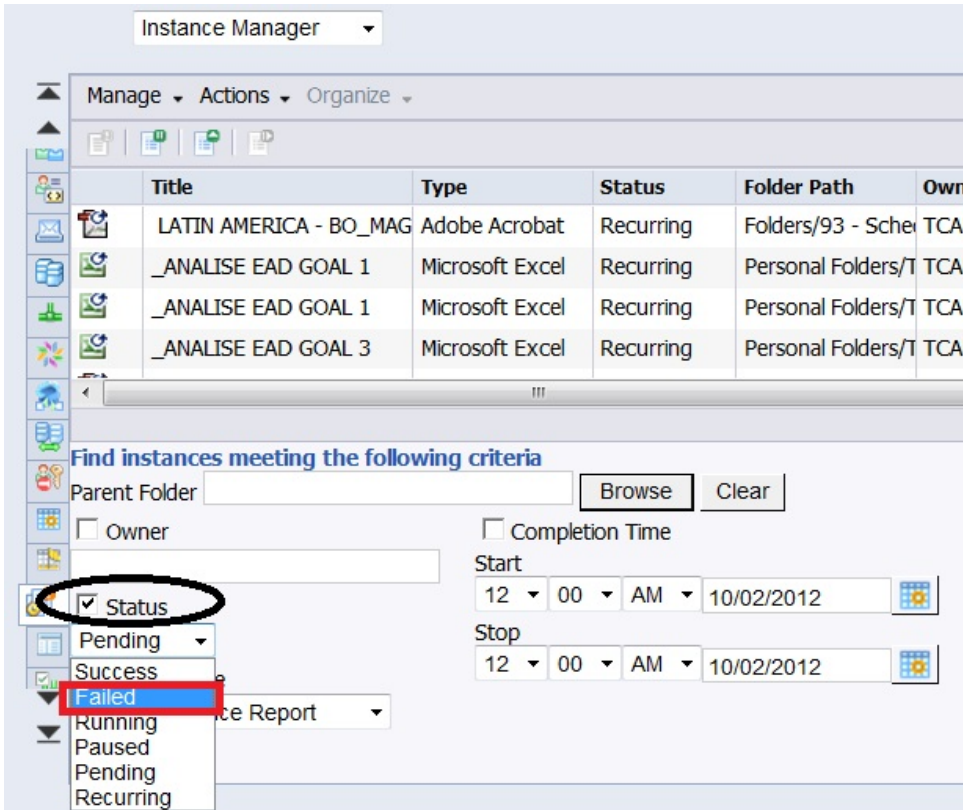

1. - Login into BO XI CMC in Production Environment

<http://bi4.eua.solvay.com/BOE/CMC> — **This link is obsolete now.**

2 - Click on Instance Manager option as displayed on picture below:

!Attachment Library^rszstep1.jpg|cleanup="null" kids="null" pendingsrc="null" !

3 - Change the status combo box to the option **failed**

4 - Click on the Find button to have displayed all the instances that had their execution failed.

Business Objects
an SAP company

Relaunching the failed schedules

1. When you find one failed record, click "Instance details"

CENTRAL MANAGEMENT CONSOLE

Instance Manager

Manage Actions Organize

Instance details

EP - GBOSCOLO - DAILY- SALES REPORT S

2. look into error message at the bottom of the Instance details page. Example below.

BW - 12 Month Rolling Aged Balance (Core Query)

Geography / Zone
Status Trading P Doc
Customer number
G/L Account
IECRA (From CDSA)
Local currency
Clearing
Clearing year/month
Net due date
Net Due Month
Posting date
Posting Year/Month
Payer country
Customer Group
Sub Customer Group

SAP BEx: Application messages for query

Error The requested query / does not exist on the current server
Abort Unknown or deleted query

Close

3 - If error display something you can try to fix , please act on the error. Example of errors you should be able to treat: Wrong e-mail address or user not found(maybe some word mistyped)

3.1 Click on the instance with problems then Choose the menu option Actions -> Reschedule

CENTRAL MANAGEMENT CONSOLE

Instance Manager

	Manage	Actions	Organize	
		Instance Details Pause Resume Reschedule Run Now Retry		REPORT SALES REP.
				REPORT SALES REP.
				SWWPPS

Check on each tab any possible problem and fix it.

Program the first execution on the tab Recurrence for a date in the past.

That would force the report to start execution immediately

CENTRAL MANAGEMENT CONSOLE

Reschedule: EP - GBOSCOLO - DAILY- SALES REPORT SALES REP_BW INTEGRATED MAR

▼ Reschedule

- Instance Title
- Recurrence**
- Schedule For
- Notification
- Prompts
- Formats and Dest
- Caching
- Events
- Scheduling Server
- Webi Process Sett

Recurrence

Run object:

Object will run once every N days.

Days(N) =

Start Date/Time: 

End Date/Time: 

Check also the tabs Prompts and Formats and Destinations. Generally all the problems are located there.

Once everything done, click on schedule button.

Reschedule

- Instance Title
- Recurrence**
- Schedule For
- Notification
- Prompts
- Formats and Dest
- Caching
- Events
- Scheduling Server
- Webi Process Sett

Recurrence

Run object:

Object will run once every N days.

Days(N) =

Start Date/Time: 

End Date/Time: 

Number of retries allowed:

Retry interval in seconds:

Now go for a drink of coffee.

Later, check again failed instances . How to do that on the beginning of this section.

If the instance you worked with appears one time more, then the execution failed again.

Please recheck everything.

If there is nothing more you can do, then move to next step below

If it is not a simple error, please check what is the owner of the report instance and contact him by phone or email informing about the instance with issues:

Manage ▾ Actions ▾ Organize ▾

How to localize one BI4 broadcast

Via System Development Kit (SDK)

(reviewed Dec 2016 SMI)

1. To localize a broadcast via SDK first you need to access de SDK page:

<http://wdcbiaq01:9000/bi41sdk/> — **This link is obsolete now.**

WDCBIAP01 for BI4 prod

WDCBIAD01 for BI4 dev

Please login in with an SAP-BI4 account before using this sdk

System:	<input type="text" value="WDCBIAP01"/>
User Id:	<input type="text" value="SMIGNARD"/>
Password:	<input type="password" value="●●●●●●●●"/>
<input type="button" value="Login"/>	

Choose Instances List

USERS
UserGroups
UserFavorites
INSTANCES
InstancesList

You can search by Id, Owner, Email, subject or Folder.
 You need to check all the case "Status", and click on "Find" button.

Export All Data Export Page Data

You can click on the  above to export all data on Excel.

How to update broadcast values

- To update the values of the broadcast you need to access
 - <http://boxi.priv.rhodia.com/InfoViewApp/logon.jsp> — **This link is obsolete now**
- After you accessed InfoView you need to find the broadcast that you want to update the values, the majority of the broadcast can be found in the

Schedule Report folder

- Once you found the report that contains the broadcast that needs update, right-click report and select "History" ! Attachment Library\InfoViewHistory.JPG|cleanup="null" kids="null" pendingsrc="null" !
- A new window you open where you can select the broadcast (if there is more than one) to update

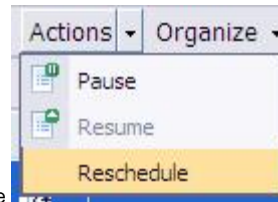

History - CS EP - MTD M M-1 ORDER BOOK ENTERPRISE & BU_CWPPPS_007

Show All Show Completed Show only instances owned by me

Filter Instances By Time

Actions Organize

	Instance Time	Title	Run By

	May 25, 2010 2:37 PM	EP CS - MTD M M-1 ORDER BOOK ENTERPRISE &	TCARVALH

5. After you selected the broadcast that you want to update go to Actions - Reschedule

Updating the broadcast settings

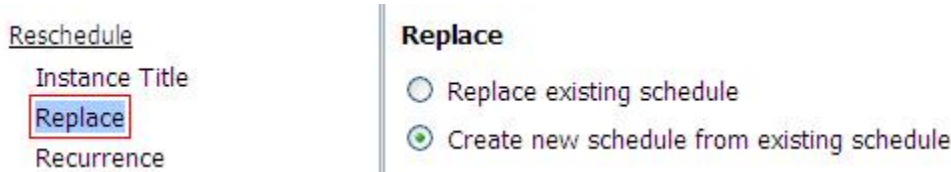

Instance Title

The Instance Title option is where you can change the title of the broadcast

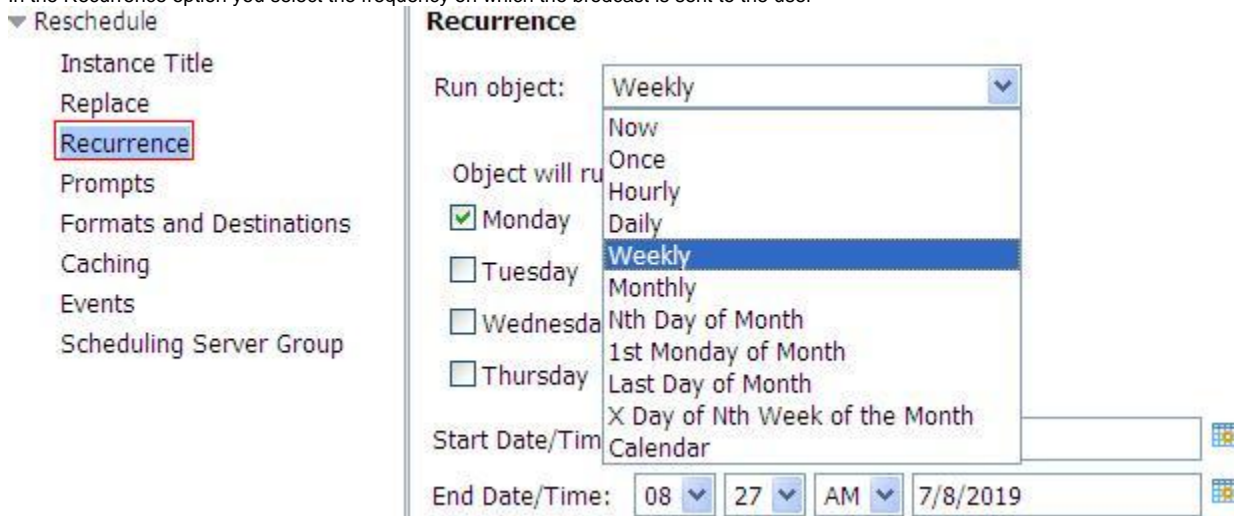

Replace

The Replace option is where you choose if the new schedule is going to replace the old one or create a new without replacing the old one

Recurrence

In the Recurrence option you select the frequency on which the broadcast is sent to the user

Prompts

In the Prompts option you set the execution criteria for that broadcast, to change the prompts click on the "Modify" button

▼ Reschedule

- Instance Title
- Replace
- Recurrence
- Prompts
- Formats and Destinations
- Caching
- Events
- Scheduling Server Group

Prompts

Modify values - for CS EP -

- Enterprise (s) ?
- IECRA (s) ?
- Legal compagny (ies) ?
- Prompt Currency ?
- Prompt Qty Unit ?

- If the user request criteria that is not in the report, contact 2nd Level to include the criteria in the report.

Formats and Destinations

In the Formats and Destinations option there are 2 other options

Output Format and Destination select in what format the broadcast is going to be sent to the user and where the user is going to receive it.

▼ Reschedule

- Instance Title
- Replace
- Recurrence
- Prompts
