

BW - DP - Budget Review (Core Query) !\ Obsolete !\

The new wiki link for this data flow is here:

[BW - DP - Budget Review \(Core Query\)](#)

Please update the new doc there and no longer here.

The objective of this documentation is not to allow to recreate from scratch the object but **to explain everything that is not obvious** by looking directly at the query/workbook or **emphases on things that are important** for the report to work.

Remove the sections that are not relevant.

Description	BW - DP - Budget Review (Core Query)
Technical Name	BW_QRY_MVDYN11_0001
Application	DP - Demand Planning
Info-provider	MultiProvider MVDYN11
Usage type	Direct execution via Analysis
Expected users

This setting determines whether the query is started in display or change mode

Startup View

☐ Start Query in Change Mode

Calculation of Inverse Formulas

Selecting the checkbox results in calculation of inverse formulas if an element in the formula group has been changed or fixed. Otherwise, the calculation is not performed until the value of input-ready formula has been changed or fixed.

Calculation Mode

☐ Symmetrical Calculation Mode for Inverse Formulas
