General presentation

The aim of the document is to list daily and monthly checks to do and following actions.

All checks are done by CGI team.

In case of **BW assistance**, contact Saints Zhang (Competence Center / SCMS domain)

In case of **DynaSys assistance**, contact DynaSys.Interface.Team@solway.com

In case of **MFT/Webservice assistance**, contact support.xml@solway.com

Please register all production issue in following google spreadsheet

Due to several complaints from DynaSys Team and DynaSys users, it is important to fill the document with **detailed** information

Every day by 9.15 am CET

In WBP with transaction ST13 / BW-Tools, use the variants DYNASYS_INTERF and DYNASYS_REPORT to have all the chains of interface and reporting

Check Interfaces chains - Steps to follow & Actions to do

Check following chains has run, and ended ok.

Chain	Type	Description	Frequency	Criticality
PC_DPS_DY_NASYS_01	Interface	DPS DynaSys: META PART1 - D - Daily Meta-Chain Part 1	Daily after Global sales chains (Not on week-ends or certain bank holidays) => starter = EVENT_Z_EVT_END_GL006	HIGH
PC_DPS_DY_NASYS_25	Interface	DPS DynaSys: META PART2 - D - Daily Meta-Chain Part 2	Daily after Global sales chains (Not on week-ends or certain bank holidays) => starter = EVENT_Z_EVT_END_GL003	HIGH
PC_DPS_DY_NASYS_03	Interface	DPS Dynasys: META - W - Weekly Meta-Chain	Weekly on Saturdays à 9am CET	HIGH Certain GBUs are weekly refreshed on DynaSys => In case of issue, inform DynaSys team on Monday CAUTION: This chain should not be repaired on Mondays as daily chain is replacing it

Process Chain Runtime Analysis

If both daily chains have not finished by 7 am, identify the root cause and estimate the ended time (if possible)

Inform DynaSys Interface Team before by 9:15 am CET => DynaSys Interface Team : Interface Issue

Check Reporting chains - Steps to follow & Actions to do

Check the process chain from the night before 6pm until current day 7am.

Chain	Type	Description	Frequency	Criticality	Comment
PC_DPS_DY_NASYS_15	Reporting	DPS Dynasys: META - D - 6.Reporting DynaSys (Dynamic KPIs)	Daily at 7am , 2pm , 6pm , 11pm (Not on week-ends or certain bank holidays)	HIGH	
PC_DPS_DY_NASYS_09	Reporting	DPS Dynasys: META - M - 6.Reporting DynaSys (Snapshots)	Every 6th of month at 6am	HIGH	
PC_DPS_DY_NASYS_23	Reporting	DPS Dynasys: META - M - 6. Reporting DynaSys (MasterData)	Daily at 10pm (Not on week-ends or certain bank holidays)	MEDIUM	
PC_DPS_DY_NASYS_33	Reporting	DPS Dynasys: TD - D - Reporting Dynasys (DIP Inventory KPIs)	Daily at 10am (or 11am), 2pm , 6pm , 11pm (Not on week-ends or certain bank holidays)	MEDIUM	
PC_APO_17	Reporting	META - D - APO - Current period and future periods	Daily at 1am (Not on week-ends or certain bank holidays)	LOW	removed from scheduling 07 /07/2020 (Special Chem Go-Live)
PC_APO_18	Reporting	META - M - APO - Snapshots	Every 6th of month at 9am	LOW	removed from scheduling 07 /07/2020 (Special Chem Go-Live)

Process Chain Runtime Analysis

Selection

Compare Runtimes

If chain PC_DPS_DYNASYS_15 has not run at 6pm CET previous night or 11pm CET previous night

=> inform DynaSys.Interface.Team@solvay.com

If chain PC_DPS_DYNASYS_15 has not run at 7am CET

=> get last timestamp in DPS DPDYN39 / DYN - Table SYS_TIMESTAMP (Write-Optimized) by running IP "IP: DTS_SYS_TIMESTAMP (Dynasys) - Full with filters"

=> check time stamps date + time

Request number	DTPR_5IYUXQA5Y13M1KYYDQ93QPFSV
Data packet number	1
Data record number	1
DynaSys - Source	BW
DynaSys - Table Name	EXP_FORE_DR
DynaSys - Type	TECH : EXPORT FORECAST DEMAND REVIEW
Record Mode	
Timestamp	20190820133828

=> inform DynaSys.Interface.Team@solvay.com

If timestamp is over 7am, BW DynaSys Team will analyse if it is worth it to force an intermediate upload.

In case of intermediate load, no need to inform users. Otherwise users will be noticed by DynaSys.Interface.Team@solway.com => **DynaSys Interface Team : Reporting Issue**

If no timestamp at all, inform DynaSys.Interface.Team@solway.com => **DynaSys Interface Team : Reporting Issue**

If chain PC_DPS_DYNASYS_33 has not run at 6pm CET previous night or 11pm CET previous night

=> inform DynaSys.Interface.Team@solway.com

If chain PC_DPS_DYNASYS_33 has not run at 10am CET or 11am CET

=> get last timestamp in DPS DPDYN39 / DYN - Table SYS_TIMESTAMP (Write-Optimized) by running IP "IP: DTS_SYS_TIMESTAMP (Dynasys) - Full with filters"

Daynasys Source = BW

Dynasys - Table Name = EXP_DIP_BW

Dynasys - Type = TECH : EXPORT BW

=> check time stamps date + time

=> inform DynaSys.Interface.Team@solway.com

If timestamp is over 11am, BW DynaSys Team will analyse if it is worth it to force an intermediate upload.

In case of intermediate load, no need to inform users. Otherwise users will be noticed by DynaSys.Interface.Team@solway.com => **DynaSys Interface Team : Reporting Issue**

If no timestamp at all, inform DynaSys.Interface.Team@solway.com => **DynaSys Interface Team : Reporting Issue**

Every day by 2.45 pm CET

Check following chain or check you have received the automatic email called "Demand planning BW report successfully update" (for PC_DPS_DYNASYS_15) and "DiP-PP reporting in BW successfully updated" (PC_DPS_DYNASYS_33).

Chain	Type	Description	Frequency	Criticality
PC_DPS_DYNASY S_15	Reporti ng	DPS Dynasys: META - D - 6.Reporting DynaSys (Dynamic KPIs)	Daily at 7am , 2pm , 6pm , 11pm (Not on week-ends or certains bank holidays)	HIGH
PC_DPS_DYNASY S_33	Reporti ng	DPS Dynasys: TD - D - Reporting Dynasys (DIP Inventory KPIs)	Daily at 10am (or 11am), 2pm , 6pm , 11pm (Not on week-ends or certains bank holidays)	Medium

if no, refer to action described for morning reporting checks.

Communication

DynaSys Interface Team : Interface Issue

Email address: DynaSys.Interface.Team@solway.com

If only PC_DPS_DYNASYS_25 is late => adapt object and content of the email referring to DP
if both chains are late => adapt object and content of the email referring to both DP / DiP-PP

Email Object : /\ [DP/DiP-PP] Dynamic import will be late today

Email Content (to be adjusted according to impact DP and / or DiP-PP):

"Hello,

Due to an issue on BW side, data files will not be available for Dynasys integration before 11:00 CET.
The integration in Dynasys will be ended approximatively round 12:00 CET for DiP1/DiP2/DiP3 and 12:30 CET for DP1/DP2/DP3.
Regards,"

* give more details about the issue (Global Sales delay, Global Sales error, DynaSys chain issue, Source System PF1/WP1 issue...)

DynaSys Interface Team : Reporting Issue

email or tchat DynaSys.Interface.Team@solvay.com with DPDYN39 contain

DynaSys Team : Interface/Reporting Issue

KeyUsers : Reporting message

Message to users by using last received emails called (or create new message)

- "Demand planning BW report successfully update"
- "CM Aero-Demand planning in BW successfully updated"
- "DiP-PP reporting in BW successfully updated"

Add distribution list :

\$SBS-IS-DynaSys team => IS Team

\$DynaSysDP2-KeyUsers (DP2 = CM Aero) => *for CM Aero message*

\$DynaSysDP3-KeyUsers (DP3 = Novecare) => *for others GBUs*

\$DynaSysDP-KeyUsers (DP = rest of GBUs) => *for others GBUs*

=> inform QV team if necessary guillaume.viaux-exterieur@solvay.com (depending of the issue)

Check impact on [QV - Demand Review for SBS Dashboard - All except CM \(Aero\) /\ Obsolete /\](#)

Change **Email Object**

Demand planning BW report => Not up to date or Not available => for others GBUs

CM Aero-Demand planning BW report => Not up to date or Not available => for CM Aero

Put **Email content**

"Hello,

Due to an issue, Demand planning BW reports are not up to date or not available
I will keep you informed when report are available."

KeyUsers : Interface message

\$DynasysDP1-KeyUsers
\$DynasysDP2-KeyUsers
\$DynasysDP3-KeyUsers

\$DynaSysUsersDiP3 (Novecare) <DynasysUsersDiP3@solway.com>

If there is a requirement for follow-up (on incident status), a wiki or google doc could be

Contacts

CGI team for WBP Chains Issues

Contacts

Generic email address (caution 23 members) : SB S-IS-Appli-Techno-Report-BW.CGI@solway.com

DynaSys team for DYNASYS PROD Issues

DynaSys.Interface.Team@solway.com

Know Issues

Interface Flat files are generated but not archived or not received by DynaSys

Currently webmethod/MFT first archives files, secondly transfers files to DynaSys

First : check files are archived

In archive directory /exploit/BW/archive/DYNASYS you should have at least all this zip files with date of the day

DYS_BW_PART2.zip => PART2 file

DYS_BW_PART1.zip => PART1 file

DYS_BW_MASTER.zip => MASTER file

If files are archived it means issue is concerning the file transfer part.

Secondly : create an 'high' incident to support group IT Slalom MFT

MFT team receive an automatic incident but seems not re-running transfert nor alert anyone else 😞

[WMPROD-WDCWMAP11] - MFT: WMPROD: DynasysBWPART2 ...

Incident

INC00000211116

Description

From: Support.XML@solway.com

To: Incoming@solway-mail.onbmc.com

CC: Support.XML@solway.com

Subject: [WMPROD-WDCWMAP11] - MFT: WMPROD: DynasysBWPART2 - Error occurred while processing file(s) from SAPWBP to MFT server

...

Type: IS Request

Subtype: Support

Functional Area: B2B (Techno)

Process: IS Techno

Subprocess: ERP Integration

Category: B2B

GBU / Function: All GBU's / FUNCTIONS

Group: IS-CAPG-MFT

Hello,

The file transfer for below details failed in webMethods MFT. Kindly check.

Flow Name: DynasysBW

Service: DynasysBW.outbound.services.PART2:getFilesFromWBD

Create a ticket similar to INC%210644 to ask MFT the root cause and why no alert, nor re-run transfert has been done

<https://solway-smartit.onbmc.com/smartit/app/#!/incident/IDGEMRVSDG4EQAR0MPXDRJN5LASVMI>

If incident is not taken into account email support.xml@solway.com and put in copy DynaSys.Interface.Team@solway.com

Thirdly : create an 'high' incident to support group IT Data Stellar L3 BW

Ask CGI team to process again MFT part by launching wanted part PART1 or PART2 or MASTER :

- MASTER => Run PC **PC_DPS_DYNASYS_Z03** (DPS DynaSys: Files transfer only - OnDemand - MASTER files)
- PART1 => Run PC **PC_DPS_DYNASYS_Z01** (DPS DynaSys: Files transfer only - OnDemand - PART1 files)
- PART2 => Run PC **PC_DPS_DYNASYS_Z02** (DPS DynaSys: Files transfer only - OnDemand - PART2 files)

Field XXX is not a member of XXX

See [Connection with UD CONNECT /\ Obsolete /\](#)

Weekly and Monthly release days for DynaSys team (impact on loadings)

DynaSys DP = **Weekly release** all Mondays from 12pm to 12h45pm + **Monthly release** every 1st Thursday of the month

DynaSys DIP = **Monthly Release** every 2nd Thursdays of the month

Note that during the days of the **monthly release**, Demand Planning BW report **is not updated** at 2pm and sometimes also 6pm.

Below, an example of email to inform users:

"Hello,

Due to Release on DynaSys side, Demand Planning BW report will not be updated at 2pm CET. The next update is scheduled today at 6pm CET. Thanks for your understanding.

Regards,"

Issue on APD => Dump on ST22 : TSV_TNEW_PAGE_ALLOC_FAILED

Sometimes it can be possible to have an issue at APD level when there is no more memory available.

ST22 Dump log :

Category	Resource bottleneck
Runtime Errors	TSV_TNEW_PAGE_ALLOC_FAILED
Date and Time	06.11.2020 08:17:04

Short Text

No more memory available to add rows to an internal table.

What happened?

An attempt was made to add rows to an internal table. There was no memory available for this however.

When it's happened, try to modify the Performance settings at APD Level :

- Goto => performance Settings

By default the flag is active.

TODO :

Uncheck the Process Data in Memory, activate the APD and repeat the step in issue at the process chain level.

If WBP is not available Saturday

If WBP is not available during Saturday morning, you have to manually generate weekly files

- DYS_BW_SKU_PW_DYNAMIC.csv
- DYS_BW_BOM.csv
