## Workbook/Query General Description

This query is a sub query which is linked with QVNVPA\_BW\_QRY\_MV\_SPD01\_0002M ,this sub query is linked in PO Item selections using Replacement Path variable in QVNVPA\_BW\_QRY\_MV\_SPD01\_0002M.

## General parameters

### Global properties

| Tab           | Screenshot | Comment |
|---------------|------------|---------|
| Display       |            |         |
| Rows/Columns  |            |         |
| Value Display |            |         |
| Planning      |            |         |
| Extended      |            |         |

### Variables

#### Definitions

| Variable Name | Info-object | Selection Type | Required | Description/Explanation |
|---------------|-------------|----------------|----------|-------------------------|
|               |             |                |          |                         |

#### Variable Sequence

### Filters

| Object  | Filter Value | Explanation |
|---------|--------------|-------------|
| C_VGABE | M , 3 & S    |             |

# Key figures

## Key Figure 1

### Description

### Calculation rule detail

### Text Replacement Variable

### Currency Conversion

Exchange Rate Type :

### Unit Conversion

Unit :

## Characteristics

| Location | Info-object Name | Info-object Text | Explanation (if needed) |
|----------|------------------|------------------|-------------------------|
|          |                  |                  |                         |
|          |                  |                  |                         |
|          |                  |                  |                         |

## Cells

## Conditions

| Condition Name | Active<br>By default | Key Figure<br>(Structure) | Operator | Value | Characteristic Assignment |
|----------------|----------------------|---------------------------|----------|-------|---------------------------|
|                |                      |                           |          |       |                           |
|                |                      |                           |          |       |                           |

## Exceptions

| Exception Name | Active<br>By default | Alert Level | Operator | Value | Other parameters<br>(if different from default) |
|----------------|----------------------|-------------|----------|-------|-------------------------------------------------|
|                | Yes/No               |             |          |       |                                                 |
|                |                      |             |          |       |                                                 |
