

# eInvoicing

Combine "Medium Description" with "Output"

| e-Invoicing                                | PF1  | WP1                                      |
|--|--|--|
| EDI<br>(EDI = Electronic Data Interchange) | Medium = EDI and<br>Output message= ZF00 or ZF2B | Medium = EDI and<br>Output message= ZINV |
| eMail                                      | Medium = External send                           | Output message = ZREI, ZRDE, ZRDC        |
| Fax  | n.a.   | Medium = Fax                             |

**Important:** If the billing document has more than one eInvoicing type, the report takes the last output line created

## Medium and Output in SAP

**Invoice 90510866 (F2) Display: Output**
