2.0 Business Process

Every year, employees have to meet objectives that they have registered themselves in collaboration with their managers. These objectives are then used to carry out their end-of-year assessment. Once this assessment has been completed, management assigns them a performance grade ranging from 1 to 5.

To help them improve, company employees can also ask their colleagues for feedback on their work, and send feedback to colleagues who have asked for it.

All these actions took place between 2018 and 2020 in a tool called YOU. It was an HR tool, helping to monitor performance and assist talent management. It also contained information on employee mobility willingness, such as geographical changes or changes of position within the company.

Since 2021, the tool has been decommissioned and the same actions are carried out on the Success Factor tool.

An employee can request at anytime his data link to his performance during the time he was in Solvay. This query main purpose it to store the data and make it available for any request from an employee.

This report is not the data source for any dashboard application.

3.0 Application Feature Overview

Reports	Definition	Prompts	BW Workbook Query	Query Technical Name
Assessment per Appraisal Campaign	Having YOU tool as datasource, you can find in this report, not only detailed information of Appraisal Campaign but also data to do the follow up of individual objectives and feedback culture	Campaign ★ Functional roles ★ ★ mandatory field	n.a	BW_QRY_C PHRAPCAM P_0001
