Business Term Status

The Business Term is currently **validated** by the Data Governance Committee.

Business Term Definition

A Sales Area is an organizational unit that defines the structure for sales processing and order management. It consists of three elements: Sales Organization, Distribution Channel, and Division. These elements together determine how sales data is maintained, processed, and reported. The Sales Area is critical for defining customer relationships, pricing strategies, and sales reporting, ensuring that all sales-related activities are aligned with the Solvay Business Structure.

Data Sources, Type and Classification

Data Source SAP & CRM	Data Type Master Data	Data Classification Internal Data
---------------------------------	---------------------------------	---

Data Protection and Update Frequency

Data Update Frequency

On demand with required permission

Data Protection & Access

No special access except for updates - only Data Stewards are permitted

Data Quality Issues and Rules

Data Quality Rules

1. **Timeliness** - Customer without any order since 3 years (current year + 3 years history) and not flagged "inactive", to be discussed: could we identify customers which disappeared (e.e. bankrupt)
2. **Uniqueness** - Customer with the same name, same address and same VAT are duplicates
3. **Completeness** - Corporate Group not assigned to customer: Source Salesforce CRM: check if corporate group is empty - report in CRM - also to be checked in ERP
4. **Completeness** - Not assigned Ship-to KA
5. **Conformity** - Account Sub-type maintained: End-User or Distributor but not empty
6. **Conformity** - Customer Segmentation maintained: Key Account, Critical account or Standard Account but not empty
7. **Conformity** - Customer creation in line with naming convention: Customer name created with Upper cases
