

Request access to a dashboard

If you need to access a dashboard, please use [Service One](#)

No matter the technology hosting the dashboard, the appropriate service is "[Corporate Dashboard Access Request Form](#)"

Note: this service can be used only for dashboards under maintenance by DT, not for self-service dashboards.

In this case, please contact the owner of this dashboard.

After approval, the support will grant you access, notifying you of the details to access the dashboard

A screenshot of the 'Corporate Dashboard Access Request Form' interface. The header shows the form title and 'Waiting Approval' status. Below is a table with columns: Status (Waiting Approval), Request ID (1470351), Quantity (1), and Request for (Donia Rachdi, User ID: DRACHDI, dummy@solvay.com). A progress bar shows the current stage as 'Submitted', with 'Approval', 'In Progress', and 'Completed' stages following. An 'Approval' section indicates 'Currently waiting for 1 approval' and shows a '+2' icon with '2 people' and a 'Details' link.

Status	Request ID	Quantity	Request for
Waiting Approval	1470351	1	Donia Rachdi User ID: DRACHDI dummy@solvay.com

Approval

Currently waiting for 1 approval

+2 2 people
Details

If your request is not answered in a timely manner, you may check whom is the approval pending and ping them.

To know who is the approver of the corporate dashboard, please refer to the dedicated homepage of the dashboard wiki.

Useful tips:

- Using the "Request for" feature, you can not only demand access on behalf of someone else, but you can also request up to 20 accesses (20 people) for the same dashboard at the same time (if the scope is the same = same GBUs, zones, conditions...)

Corporate Dashboard Access Request Form
 Access & Applications, Research & Innovation, Sustainability (PCF, LCA, SimaPro...), Data, Analytics & AI services, Reporting and Dashboarding, Dashboarding Tools

Description
 Up to 20 people can request this service at once. To do this, click on the name link under "Request for" and add the names of the people you want to include (maximum 20). They will all receive the same access.
 If you need different accesses for different users, please make separate requests.
