

Orders Blocked

Process Owner

Laure Imberti
Process Expert

D&PS Expert

Miriam Luttrin

General Description

This indicator presents total number of orders blocked. The reasons resulting on the block of orders (eg. block due to Credit Management, storage, Price, etc.). Percentage of each block reason is also included.

**One order could be blocked successively with different types. So the total percentage and number of all types could exceed 100% and total of number created.

Indicator details results can be analyzed by :

- Family
- Sub Family
