

# Customer Specific Requirements

## Owner

CRM Team

## D&PS Expert

EMEA: Stéphane Bourgeaud-lignot

NAM/LAM: Karina Tsuji

APAC: Lilian Cheong

## General Description

The Customer Specific Requirements are a long-term modification on the product asked by the customer. After an assessment and a validation process, the Customer Specific Requirement is Active (no close status). Once the customer doesn't want the given customisation to be made anymore, the Customer Specific Requirement is Desactivated.

Today, only Aroma Performance and Novecare use this process into SalesForce.

This section is divided into 3 parts:

- [Analysis](#)
- [Leadtime](#)

## Authorization & Rights

Authorization & Rights  
All the accesses must be validated by:

GBU CRM Champions
