General Description

The objective of this dashboard is to allow GBUs and Functions monitoring their spend evolution, as well as their travelers behaviors over time. The T&E Dashboard is the result of a Demand Management initiative and therefore has been built to increase transparency on T&E Spend, Expenses reports and travelers behaviors.

This dashboard is providing different angles of analysis :

1. [Executive summary & group benchmark](#)
2. [Financial overview - spend evolution \(controlling data\)](#)
3. [Expenses overview \(Concur data\)](#)
4. [Bookings behaviors \(AmexGBT/travel agency data \)](#)
5. [Bookings overview \(AmexGBT/travel agency data \)](#)
6. My reports

[A Quick Start Guide is available here](#)

What is online & offline, ATP or O&D? Click [here](#) to see the glossary and fully understand the acronyms of T&E.

Data Sources

Sources	Tool	Scope	Reference date	Usage & Adjustments
1 	BW (based on fixed costs) Cognos (based on fixed costs)	SAP VP1 & PF1 SAP PE1 & BA01	posting date	This data is the reference for spend evolution & P&L calculation N-1 Spend is RSB based on exchange rate at Dec N-1 N Spend is RSB based on M-1 exchange rate
2 	Concur Solvay Concur Cytec	SAP VP1 & PF1 on implemented countries SAP PE1 & BA01	send for payment date	This data is used to get spend per travelers and per expense type*
3 	Insight - AmexGBT (travel agency)	Online (Concur & Online agency) booking	booking date	This data is used to analyse travelers booking behaviors, trip duration & purpose, cost per ticket** and supplier (invoiced), cost per hotel nights or car rental daily rate (booked)

3 different data sources, coming from different tools, using different scope and reference dates.

It is recommended to use Expenses and Booking information as additional information to Finance /Controlling data from BW, but not to try to match figures of the 3 sources.

**check details in "Information on data sources" Concur*

***check details in "Information on data sources" Amex GBT*

Additional information:

- You will find N-1 data, as well as current year YTD M-1 data, all figures are in **EUR**.
- Data of M-1 is available on the 15th day of M.**
- By default, data selection is always YTD of current year.
- There are some accesses restrictions to employee level information in accordance to **GDPR** regulations.

Period of Analysis

- Current Year
- Y-1
- By Month, By Quarter

Dimensions

Dimension Description	Finance - Controlling (BW)	Expenses (Concur)	Booking (AmexGBT)	Comments
