

Bookmark Sharing Tips

Process Owner
GBU Sales & Marketing / Finance

General Description
Use this step by step guide to efficiently share book marks with other users:

Sharing Bookmarks is quite complex in CRM Analytics because of access authorization . A link sent when entering Analytics through Sales Force may not work correctly:

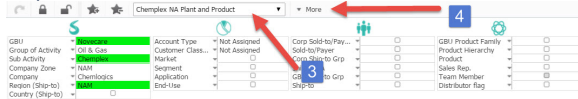

To share bookmarks , the link **must be created** through the Qlikview Access Point site:

Step 1: <http://qlikview.solvay.com/index.htm>

Step 2: Open CRM Analytics or Quality dashboard (depends where you save your bookmark)

Step 3: Choose the bookmark you want to share:

Step 4: Click "More", then "Mail with bookmark as a link"

An email is created including the link :
blocked URL

Step 5 : Copy/Paste the link: "<http://qlikview.solvay.com/QvAJAXZfc/opendoc.htm?document=crm%20-%20analytics.qvw&bookmark=Server\BM122804-18&host=QVS@wdcqvp21>"

Please contact your local Decision and Piloting Solutions Specialist if you need more help with this.
