Templates

Document	Description
	This mapping should be used during the ingestion phase between source and Staging dataset in BigQuery. We use the Battery Electrochemistry data mapping as template for now.
	This mapping should be used during the integration phase between Staging to ODS dataset in BigQuery. We use the Battery Electrochemistry data mapping as template for now.
	This mapping should be used during the presentation phase between STG/ODS to DW/DM datasets in BigQuery. We use the Battery Electrochemistry data mapping as template for now.
